MISSING BALLOONISTS FOUND

SEVEN MINERS ARE KILLED AS RESULT EXPLOSION IN MINE

ACCIDENT OCCURRED HILLMAN COAL AND COKE MINE AT NEW KENSINGTON

NEW KINSINGTON, Pa., Sept. 11—(AP)—Seven miners were killed and one injured today by an explosion in the Barking mine of the Hillman Coal and Coke company.

The dead:

MIKE STOPKO, 35.
JOSEPH FRANCONI, 22.
CHARLES SOLOMON, 47.
JOSEPH DUBINSKY, 33.
GREELEY TUSING, 39.
JACOB MILLER, 45.
KONDRAT RUBEN, 41.

Joseph Bayer, 23, was brought to a hospital suffering from burns about the hands and face.

The blast was confined to two sections of the mine. Miners in other parts of the workings were not affected.

The U. S. Bureau of Mines sent a rescue car and equipment to the scene and an investigation is under way to determine the cause of the explosion.

The mine superintendent's office said the workings have been explored and that the casualty list will remain at seven dead and one hurt.

Bridegroom Of Seven Weeks Is Slayer of Two

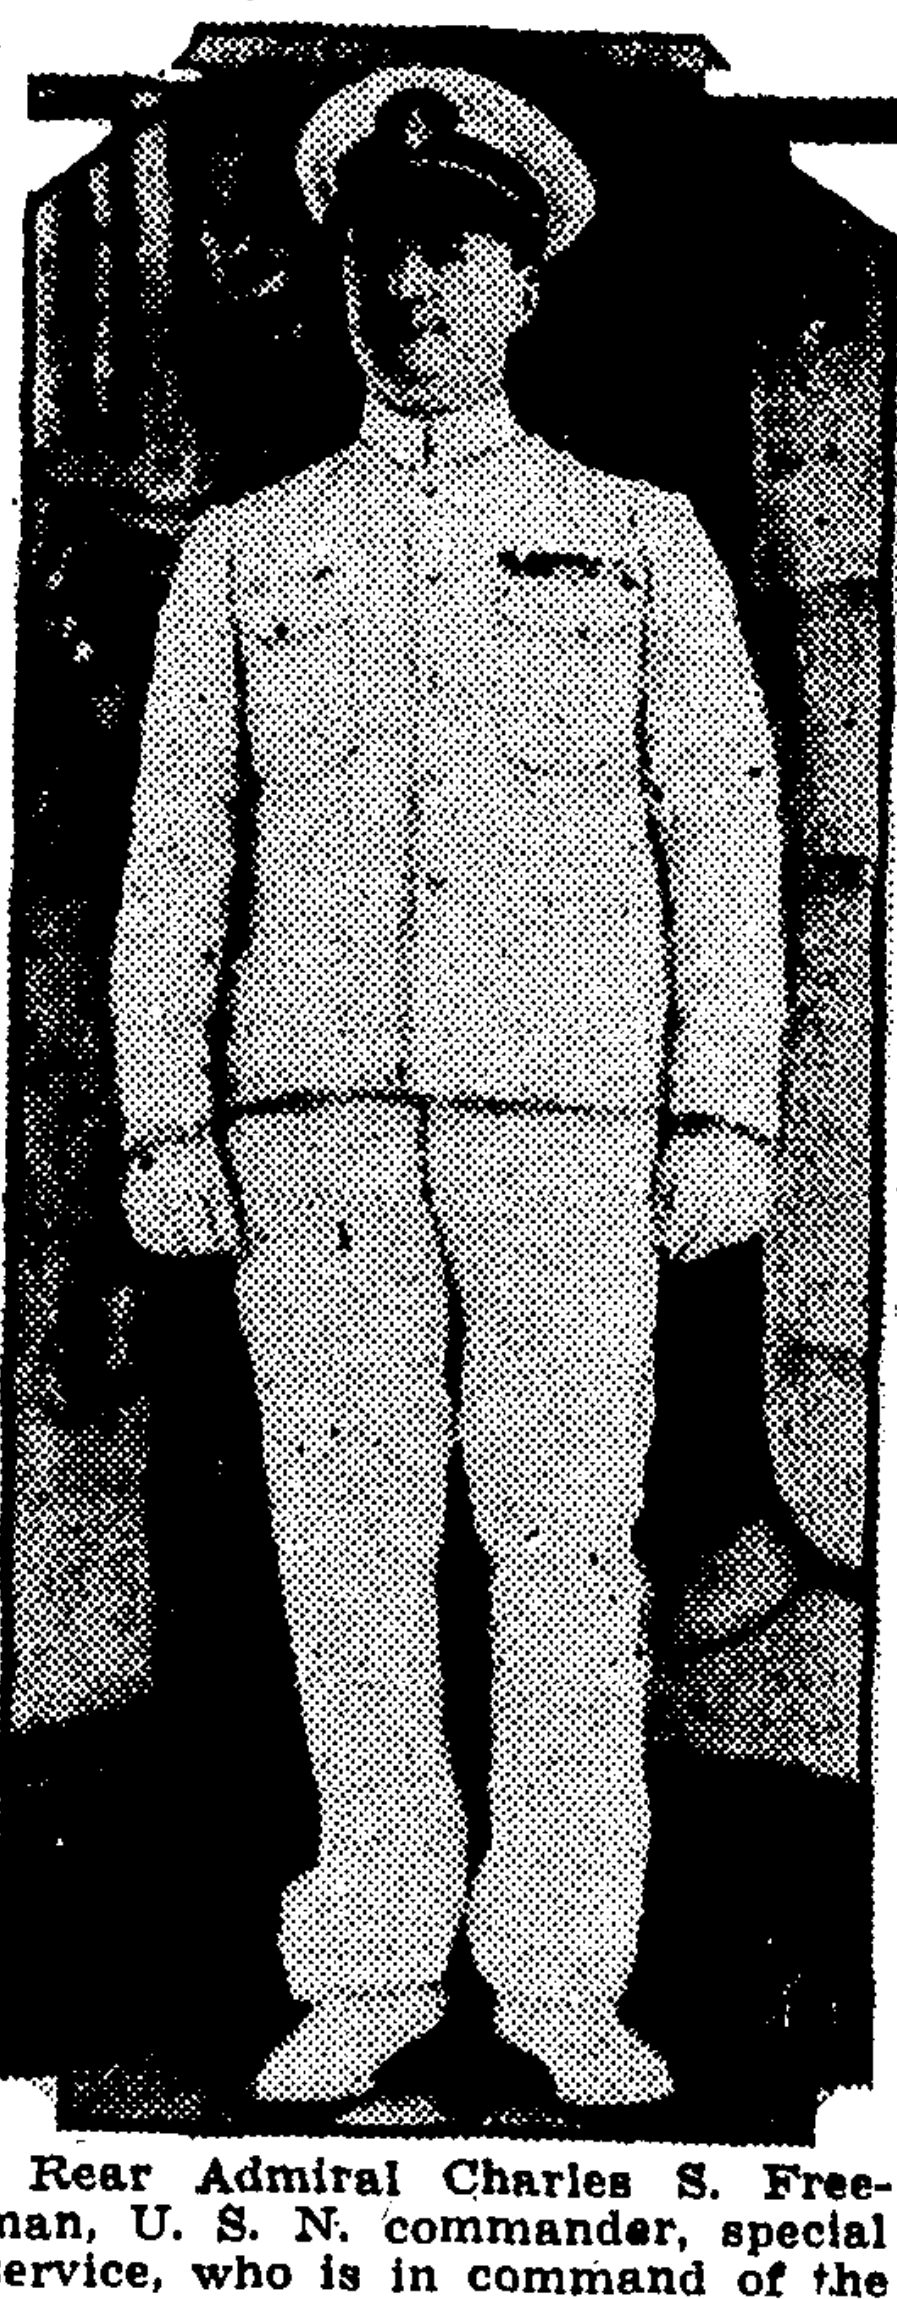
CHICAGO, Sept. 11.—(AP)— A bridegroom of seven weeks hacked to death his bride and her daughter by a former marriage today.

The police, summoned to investi[illegible] a turmoil in their apartment, found Mrs. Lillian Kowal[illegible]ek, 40, and her daughter, Anna Nicholas, dead of axe wounds. The girl had been killed as she slept. In the back yard the officers found Peter Kowalscek, 42, still clutching the axe. He surrendered without a fight.

Lieut. John Farrell said the man readily admitted the crime, and appeared crazed or drunk. He said he was jealous of his wife.

"Already she go around with other men," Kowalscek was quoted. "I can't stand it any longer so I kill her."

In Command at Cuba



Rear Admiral Charles S. Freeman, U. S. N. commander, special service, who is in command of the four American warships rushed to Havana following the new revolt of Cuba's armed forces which ousted the government of President De Cespedes. Admiral Freeman's flagship is the cruiser U. S. Richmond.

BAKERS ANNOUNCE BREAD PRICE BOOST OF ONE CENT LOAF

Local bakers announced Monday an increase of one cent a loaf in the price of bread in Corsicana, effective immediately.

The wholesale price of bread is now seven cents and the retail price eight cents.

The increase in the price of flour and all other ingredients used in the baking of bread, shorter hours necessitating the employing of more men at increased salaries caused the price increase the local bakers point out.

It is stated that flour is selling at an advance of 150 per cent above the March price.

FIRST INDUSTRY TO SECURE BLUE EAGLE, TEXTILES, IS NOW FACING CONSUMING CRISIS

MAINE, DRY FOR SEVENTY-FIVE YEARS, VOTING ON REPEAL

THREE OTHER STATES WILL VOTE ON PROHIBITION ON TUESDAY

By The Associated Press. ...

Maine, dry for more than 75 years, drew the attention of the whole nation today as she balloted on the proposal to wipe prohibition from the national constitution.

Twenty-five other states had voted previously and all approved repeal. Tomorrow Colorado, Minnesota and Maryland will have their turn at the ballot boxes.

Thirty-six states must signify their approval before the 21st amendment, which would nullify the 18th, can become part of the constitution. At least 39 will have their elections by Nov. 7.

PORTLAND, Me., Sept. 11.—(AP)—Maine's polling booths opened today for a vote on repeal of the 18th amendment which most observers looked upon as a preliminary skirmish in a fight by repealists to wipe the state bone dry laws from the constitution. An[illegible]peal leaders were not [illegible] in saying they saw a possible threat to the more than 75 years of state prohibtiion in the event Maine today should join the 25 other states which already have signified disapproval of the federal prohibitory laws.

The polls, opening at 6 a. m. (EST) will close at 5 p. m. in communities of less than 300 population and at 7 p. m. elsewhere.

While the state supreme court ruled the constitutional convention on repeal must be a deliberate body truly representative of the people, there was no assurance it necessarily would be representative of the people's will by today's vote.

By HIRAM HERTELL

NEW YORK, Sept. 11.—(AP)—First to win the blue eagle, the textile industry is now facing a test of consuming ability to pay the higher prices current in primary markets.

Textile activity surged upward phenomenally from March on through July, carried forward by the powerful driving force of a threat of advancing quotations. During the past six weeks however, there has been a moderate recession.

The silk and cotton goods industries have suffered the most pronounced setback, while Rayon production is continuing around capacity levels. Woolen and worsted goods operations have also been marching forward with little change of stride.

In the silk industry, labor difficulties have admittedly slowed down production. In the cotton goods trade, however, the pressing problem is to create an adequate consumer demand for their products which are now perforce festooned with higher price tags.

In this connection, the industry has been encouraged by signs of enlarged retail buying. August retail volume in dry goods and apparel was substantially ahead of a year ago. September is expected to show a continuation of this trend.

As a result of the new federal processing tax, which went into effect Aug. 1.—as well as the readjustment of working schedules in accord with NRA code-operating costs of the textile industry have inevitably advanced. Reports show that some mills not heavily supplied with working capital, are finding this situation burdensome.

From the viewpoint of the industry as a whole, however, some leaders feel that this may prove a blessing in disguise inasmuch as the result will be close adjustment of production to market requirements.

The opinion is general throughout the textile trade that in few other industries is there greater room for benefits from an agreement for fair competition. Long the victim of throat-cutting practices and frequent overproduction, many leaders in the field view the NRA code as a purging process of great value.

THREE MEN KILLED AND FOUR WOUNDED IN PRISON BREAK

LOUISIANA CANE BRAKE IS SURROUNDED BY GUARDS; 11 MEN HIDING THERE

ANGOLA, La., Sept. 11. (AP)—Eleven desperate convicts, heavily armed, who escaped from the state penal farm during a baseball game yesterday, today were believed to have scattered into Central Louisiana and Mississippi after eluding a posse.

More than 300 possemen, with orders to "shoot to kill," this morning closed in on a densely wooded section near the prison where the fugitives were thought to have taken refuge, but found no trace of the prisoners. Thirty bloodhounds had apparently lost the scent.

ANGOLA, La., Sept. 11—(AP)—Scores of armed guards early today began to close in on a canebrake seven miles northeast of Angola prison farm where 11 desperate convicts were believed surrounded after a bloody Sunday prison break in which three men were killed and at least four oth-

Beaumont Man Is Held Without Bail Following Slaying

GALVESTON, Sept. 11.—(AP)—William L. Walker, Beaumont soft drink manufacturer, was held incommunicado in the Galveston county jail today, charged with murder and assault with intent to murder in connection with a shooting at a beach cottage at *Caplen Resort, on Bolivar peninsula.*

Victims of the shooting, which occurred Saturday afternoon, were Hubert B. Oxford, 48, Beaumont lumberman, who was killed; Mrs. Seawillow Keith, 50, member of a prominent Beaumont family, critically wounded; and a negro man and woman, servants of Mrs. Keith, wounded *slightly*. The wounded persons were in a Beaumont hospital.

Sheriff Frank L. Blaggne went to Beaumont to obtain statements from Mrs. Keith and the negroes. County Attorney Ralph Crawford said a preliminary hearing for Walker would be held before Justice of the Peace Johnson early this week.

The charges against Walker were filed by Deputy Sheriff George Harrington of High Island, who arrested Walker and brought him to the Galveston county jail. Jailers said not even an attorney had been allowed to see Walker, who was being held without bail. Walker is 46 years old.

FLOOD MENACE IN RIO GRANDE VALLEY AREA IS REDUCED

LEVEE SYSTEM IN HURRICANE STRICKEN AREA REPORTED HOLDING UP

BROWNSVILLE, Sept. 11.—(AP)—The flood menace to fertile agricultural lands on the American side of the Rio Grande was materially reduced today after the crest of the high water swirled past Hidalgo without having strained the levee system to the breaking point.

Inadequately protected lands on the Mexican side of the swollen border stream, however, were inundated in the vicinity of Matamoros and Reynosa.

More than 1,500 men continued to patrol the huge flood control works guarding the American side against possible breaks as the muddy torrent rolled toward the Gulf of Mexico. The river was falling at Hidalgo after reaching a peak stage there of 25.2 feet.

Some danger still existed in the extreme lower valley, the river's stage at Brownsville being around 18.6 feet, practically as high as the epak during the disastrous flood last year when thousands of acres were deluged because of levee breaks.

The stage at Brownsville had been above 18.5 feet since Wednesday night. The flood control works, packed solidly by rains accompanying a hurricane that hit the Lower Valley last Monday and Tuesday, were functioning perfectly and there was no cause for alarm, according to W. E. Anderson, consulting engineer for the international boundary commission. Major E. H. Marks of the board of army engineers agreed with Anderson.

Thousands of acres of low-lying Mexican farm lands and

MEET THE "TWIN" DAHLIA QUEENS

Judges who were stumped when called upon to select the more beautiful of these two sisters to preside as queen over the Long Beach, Cal., Dahlia Show, got over their difficulty by selecting both and naming them the "Dahlia Twins." In private life, the girls are Florence and Henrietta O'Connell, of Long Beach.

Important Meeting of Corsicana Merchants Tuesday 10 a.m. C of C

LAST CALL!
Time: Tuesday morning at 10 a. m.
Place: Corsicana Chamber of Commerce.
Who: Every merchant in Corsicana.
What: An opportunity to make plans for a greater fall business.

Why: The necessity of letting the people of the Corsicana trade area know that the merchants of this city are interested in their welfare and in the supplying of *their needs; and to protect the Corsicana territory against* the encroachments of cities which have "jumped the gun" on Corsicana.

A final opportunity for the merchants of Corsicana to adopt concerted plans for a *greater fall* and winter business will be presented at a mass meeting at the Corsicana Chamber of Commerce Tuesday morning at 10 o'clock, with a tentative schedule arranged by the *Trade Extension Committee* as a basis for discussion.

An added incentive to the immediate formation of plans to take advantage of an unusual opportunity was added Monday when the second quota of this county's *checks arrived*, 134 in number and totaling $21,893, the advance guard of more than a million dollars in new money to be brought into the Corsicana trade area within the next six weeks.

Some merchants have indicated that when the money arrives they will be willing to participate in some plan of concerted action, but sponsors of the city-wide plans point out that such a stand is on a false basis for the checks are ready money and when they arrive there will be no time for planning and the merchant who is ready to serve the public and has laid the proper predicate will be the one who receives the major portion of the benefits.

Several Corsicana merchants reported the largest day's business Saturday in several years, and one manager reported that only a Christmas Eve could exceed *his* business last Saturday. Similar reports were received from others and members of the sponsoring committees expressed a belief that with a minimum of effort the same success might be brought to practically *every merchant in Corsicana.*

Assistant Attorney General.

AUSTIN, Sept. 11.—(AP)—R. B. Anderson of Godley, member of the Texas house of representatives *from the 99th district*, has resigned to become an assistant attorney general. Anderson was serving his first term.

Charred Body of Farmer Found In Ruins of Hay Barn

COOPER, Sept. 11.—(AP)—Evidence to support a theory that Walter B. Anderson, whose charred body was found in the smoking ruins of a hay barn on his farm, might have been murdered by persons seeking his money, was sought by investigating officers today. The 51-year-old farmer lived four miles south of Cooper.

Ropes about his neck and arms bound him to a post in the ruined barn and kerosene-soaked hay was underneath his body. There was a slight fracture on his forehead. He lived *alone* in a *house* some 50 yards from the barn and officers had reason to believe he kept a considerable sum of money concealed aout the premises.

Justice of the Peace Tynes began an inquest yesterday but withheld his verdict pending further investigation. Witnesses at the inquest hearing said they saw the barn burning about 2 a. m. yesterday but it contained 30 tons of hay and they could do nothing to extinguish the blaze.

After a time it was discovered that Anderson was missing and officers were notified. The Cooper fire department was summoned and when the fire was brought under control, Anderson's body was found, coered with fallen hay.

Nothing was disarranged in his house. A loaded shotgun lay on the floor beside a bed that had been occupied by him. Only 50 cents was found on his person. He was reputed to have been prosperous.

SECOND QUOTA OF COTTON ACREAGE REDUCTION MONEY RECEIVED MONDAY MORNING

Navarro county's second quota of cotton acreage reduction checks were received Monday morning and notices were mailed during the day to the 134 growers whose contracts were fulfilled and completed by the arrival of the final payments, totalling $21,893.

County Agent C. C. Morris announced that the growers would be notified promptly when their checks arrived and their notices would tell them where to report for their checks. He said that the growers could assist the agent greatly if they would not call for their checks until they had received their written notices.

With the second quota, Navarro *county* has received 147 checks out of a total of 4700 expected for this county, and a total of $26,003 in new money has been brought into the county, an average of $146 per check.

The 4700 hundred contracts are *expected to* bring between $800,000 and $900,000 into the county within the next thirty or forty-five days.

PLANS APPROVED FOR COLLECTION BILLION IN TAXES

PRESIDENT EXPECTS HUGE SUM IN BACK FEDERAL TAXES TO BE RECEIVED

WASHINGTON, Sept. 11. (AP)—President Roosevelt today approved plans for a campaign to collect more than $1,000,000,000 in back taxes owing the government.

Guy Helvering, commissioner of internal revenue, outlined the program for cleaning up the government's books and said he was ready to start the drive immediately.

About $750,000,000 in taxes is in dispute and is in process of settlement. Another quarter of a billion dollars is unpaid the government.

Helvering said his "most conservative estimate" of collections that can be made in the campaign would be $300,000,000 now.

He is confident of getting in most of the remainder after litigation is settled.

Mr. *Roosevelt* promised to provide Helvering with money that may be necessary in waging the

New Hurricane Is Reported In Gulf of Mexico

WASHINGTON, Sept. 11.—(AP)—Another tropical disturbance today was traveling toward the United States coast line, the highest wind velocity reported being 50 miles an hour.

Weather bureau observers said the fact of the northwestward general course of the blow, which was approximately 450 miles northeast of Puerto Rico early today, was no infallible indication it would reach the coast line.

Quite a few of the periodic tropical storms which originate in the Caribbean area swerve northwestward before they approach the coast and blow themselves out over the North Atlantic.

The bureau also reported a minor disturbance between Belize and Tela, Honduras, but immediate attnetion centered on the storm off Puerto Rico.

WASHINGTON, Sept. 11.—(AP)—The weather bureau today issued the following storm warning:

"Advisory 10 a. m.: Tropical disturbance of wide extent and *of considerable intensity* over small area centered about 450 miles northeast of San Juan, moving northwestward about 12 miles per hour. Minor disturbance has developed between Belize and Tela, Honduras."

FLOOD WATERS IN TWO STATES CAUSE TEN DEATHS SUNDAY

CLOUDBURST SENDS SOUTH DAKOTA CREEK SWIRLING DOWN ON HOUSE

FORT THOMAS, S. D., Sept. 11. (AP)—A cloudburst that swelled tiny creeks into raging streams, took eight lives and caused heavy damage on the Crow Creek Indian *reservation*.

Members of two Indian families, trapped by the onrushing waters as they slept yesterday, were drowned. Fifteen other persons were marooned in precarious places of safety for some time before they were rescued.

A downpour of rain that measured ten inches sent a 12-foot wall of water raging down Soldier's creek. It crushed the Fred Loudner home, and Loudner, aged 41; his wife, 37; their four children, rainging in age from 3 to 17 years, and Mr. and Mrs. Sol LaPlante, of Rosebud, were swept away in the wreckage. The LaPlantes were guests of the Loudners.

Indians from the reservation *searched the lowlands* as the waters receded, for the bodies of LaPlante, Loudner and the youngest Loudner child. They were believed to have been carried into the Missouri river. The bodies of the other victims were recovered.

Several other creeks also were swollen by the heavy rains, and the Missouri river at Chamberlain, *20 miles from here, rose five feet,* the sharpest rise from rain in 20 years. Many head of cattle and horses perished in the flood.

Two Dead; Damage Heavy at Denver

DENVER, SeSpt. 11.—(AP)—Receding waters in six streams of the Denver area left a toll of two dead today, possibly three missing

Find Balloonists

Ward T. Van Orman, famous American balloonist, and Frank A. Trotter (top), missing entrants in the Gordon Bennett balloon race, who were sought in Canadian woods after it was reported a balloon had been seen drifting north of Quebec. The missing balloonists were found Monday near Sudbury in Northern Ontario, ill but not dangerously so.

MAN KILLED BY COTTON BELT MOTOR CAR AT KERENS

Sikes Jones, LaRue, Texas, aged about 35 years, was instantly killed shortly before 2 o'clock Monday morning when he was allegedly struck by the east-bound *Cotton Belt motorcar at Kerens,* according to information received here Monday.

The body was mangled almost beyond recognition, with one arm and one leg severed.

The body was brought to the *Corley Funeral Home in Corsicana* to be prepared for burial. T. A. Crowley, justice of the peace at Kerens, viewed the body and returned a coroner's verdict of death from being struck by the train. Deputy Sheriff Jack Floyd went to Kerens early Monday morning and inaugurated an investigation of events surrounding

Gasoline Prices Advanced By All Major Compan[illegible]

For the third time in two we[illegible] gasoline prices were advanced [illegible] all major companies in Corsica[illegible] Saturday afternoon. The late[illegible] rise was of one cent per gallon on all grades, making the current prices 16 1-2, 19 1-2, and 21 1-2 cents per gallon retail.

The three-cent advance on the two highest grades and the four cent advance on the third grade represented two and a half and three and a half cents advance per gallons in wholesale prices, the dealers having an additional half cent margin.

The new retail prices bring gasoline almost to the level of those of a few years ago when crude oil was bringing the producer $2 and better per barrel. The present price is under $1.

GAMEKEEPERS ON ENGLISH ESTATE GUARDING EINSTEIN FROM NAZI THREATS OF DEATH

CROMER, NORFOLK, England, Sept. 11.—(AP)—Anybody attempting to molest Albert Einstein in his humble refuge on the Norfolk coast may get bullets from guns of his host's game keepers.

And if Commander Oliver Locker-Lampson himself is around any intruder may have to face the revolver which the member of parliament reputedly is carrying while the celebrated mathematician is under his protection.

Professor Einstein arrived from London, *yesterday, feeling reported* Nazi threats against his life, and set about at once in his quiet, tree-surrounded retreat to work on a new mathematical theory—the nature of which was not disclosed—and to prepare for lectures in America next month.

Seemingly content, Dr. Einstein said: "All I want is peace. Where could I find a more peaceful retreat than here in England?

"At Le Coq (Le Coq-Sur-Mer, Belgium) I was always guarded. It was a terrible strain. It interfered with my work. My friend has invited me here, and I hope to stay in England for a month."

He said he was not responsible for the "brown book" which incurred Hitlerite wrath and which, Nazis alleged, was a compilation of victims of persecution.

"I was on a *committee* which authorized publication of the book," Einstein said, "but did not write anything in it, although I agree with its contents."

It was understood today that no permanent police guard has been *provided* at the Locker-Lampson estate, but local police are aware of the position and can be summoned instantly if necessary to aid private guards which the member of parliament employs to insure the safety of his *famous guest.*

Einstein's retreat has not been disclosed to the public although its exact location is known to a few intimates who describe it as a "hut" or "shootng camp."

Whether Einstein will pass the *nights* there or in Locker-Lampson's house was not certain. It was sure, however, that the commander is taking charge of Einstein very seriously.

Einstein arrived in England

NEW PRESIDENT OF CUBA MEETS DEMAND THAT HE STEP DOWN

JUNTA NAMES DR. SAM MARTIN PRESIDENT; OFFICERS WANT DES CESPEDES

BY EDMUND A. CHESTER

HAVANA, Sept. 11.—(AP)—Cuba's fourth government in a month rode in the saddle today, with a [illegible]-year-old former professor at the reins, and the going was none too easy.

No sooner had Dr. Ramon Grau San Martin, chosen president by a junta which assumed control only last Monday, pledged himself to "fulfill entirely the revolutionary program" than 300 former army *officers* demanded he step aside in favor of Carlos Manuel De Cespedes, whose brief regime began a month ago.

In Santiago there were disquieting reports that heavily armed bands roamed the countryside ready for revolution in behalf of former President Mario G. Menocal, that unrest led merchants to close their stores, and that army *officers* refused to return to their duties.

And in Havana's Central park 5,000 persons met to hear agitators decry the newest government as lending itself to "machinations of Wall Street's financiers," shout "Down with Yankee Imperialism!" and demand the withdrawal of United States warships from Cuban waters.

Banners carried by communists demanded that American marines "leave Cuban waters" and advocated "death to Sumner Welles," United States ambassador.

Although Havana generally received the new government dispassionately, unrest continued in the interior.

At American-owned manganese *mines near Santiago* one man was killed in a brush between strikers and miners.

(Continued on Page Two)

ARLEY DECLARES PRESIDENT EAGER FOR LIQUOR REPEAL

SAYS ROOSEVELT WOULD HAVE REPEALED BY EXECUTIVE ORDER IF POSSIBLE

BALTIMORE, Sept. 11.—(AP)—Postmaster General Farley said today that President Roosevelt was eager for prohibition to be repealed "at the earliest possible moment."

In his address before the young Peoples' democratic league of Maryland, he predicted Maine would join the repeal column today and Maryland tomorrow.

"Today," Farley said, "repeal and its early accomplishment is an inseparable part of the great national industrial recovery program of the man who stood squarely on that platform and was swept to a glorious triumph at the polls—President Franklin D. Roosevelt. x x x.

"I had an opportunity to discuss this question with the President a few days ago. Not only was he pleased over the rapidity with which the states are accomplishing ratification but he is eager that we finish the task at the earliest possible moment so that in planning the national budget for the next and succeeding years he can estimate the proper return to the national treasury of revenues from legitimate alcoholic beverages which now are going in the form of enforced tribute to the illicit traffickers of the underworld—the bootleggers and the racketeers. x x x.

"If we could have repeal by an executive order you may rest assured President Roosevelt would have written such an order months ago."

CUBA

(Continued From Page One)

Two men, one an army sergeant, were arrested for conspiracy in Marianao near here. In Oriente province rebels were reported in the field. They were said to be Menocal supporters.

The Havana officers, loyal to Dr. De Cespedes who gave way before an enlisted men's coup last Monday, demanded his return but indicated that whether he continue in office or resign shortly after his reinstallation was for him to decide.

Dr. Grau San Martin, a lanky surgeon who has had few direct political connections, received the demands from Colonel Horacio Ferrer, De Cespedes' secretary of war, and announced he would answer them some time today.

The officers also asked that Sergio Carbo, publisher and junta member, "and all leaders of the army and navy mutiny" be returned to civil life.

In taking the oath of office yesterday Grau San Martin promised his government would assure the "maximum respect for all interests." Later he said his administration would be friendly to the United States and would honor all obligations "to the last penny."

Recognition Rests New Regime Itself

WASHINGTON, Sept. 11.—(AP)—Recognition of President Grau San Martin's regime today was regarded by the Roosevelt adviniatration as a question to which Cuba's new government itself must supply the first answer.

Should the new president and his cabinet demonstrate an ability to maintain order and hold the support of the Cuban people it was indicated that speedy recognition would be forthcoming.

But the same high sources said President Roosevelt first would make sure of this important step and avoid hasty recognition of a government which later might prove without sufficient popular support to rule. One administration advisor thus explained the situation:

"Recognition may come tomorrow, or it may come next week, or still again it might not come at all."

Consequently the administration showed no disposition to relax the naval preparations taken for the protection of American lives and property in Cuba in event of an emergency. It was considered unlikely that Mr. Roosevelt would recall the 30 warships already in Cuban waters or en route until Cuba's new rulers have demonstrated their political mettle at home.

U. S. Attitude Is One of Watchfulness

WASHINGTON, Sept. 11.—(AP)—President Roosevelt let it be known today that his attitude toward the new Cuban government headed by Dr. Ramon Grau San Martin depends on whether it has the support of the people there.

While keeping the strong navy forces rimmed about the island in readiness to protect American lives in event of outbreaks there, it was said at the White House that the president is ready to support that government in Cuba which is the choice of the people and can maintain order. So the present attitude remains one of watchfulness.

If the president and his forces are able to keep order, it appears that the Roosevelt administration will not hesitate to proffer recognition. There is no certainty that this test has been met yet, however.

It was re-emphasized that the administration has no intention of intervention if it can possibly be avoided.

Later, Secretary Hull indicated that the United States would recognize the present government as soon as it had demonstrated it could maintain order.

The secretary of state told reporters recognition had not been taken up formally, as the hour for such consideration had not yet arrived due to the newness of the Dr. Ramon Grau San Martin re-

● DOING THIS TO AVOID — THIS

Fat women who want to regain that slim, girlish figure, will watch with interest the experiment about to be undertaken in New York, where, under the expert supervision of Dr. Shirley W. Wynne, New York Health Commissioner, a scientific course in reducing will soon be underway. The movement, in which the Board of Education and county medical societies are co-operating, is aimed at the elimination of the dangers that lie in the fad for reducing by starvation diet and some so-called slenderizing pills. Tentative plans for the course call for dietary instructions and scientific reducing exercises, which will be undertaken in the public school gymnasia of the city. Co-operating with Commissioner Wynne are Wm. J. McAuliffe, Board of Education, and Dr. Alec Thomson, of the county medical societies.

J. T. Blackmon to Mamie Greenlee Blackmon, part of Block 362, Corsicana, $1 and other considerations.

J. L. Baker, et ux., to W. T. Dycus, 1-24th interest in 93 acres of the J. G. Littlefield and W. M. Cox surveys, $280.

J. D. Nolen to W. T. Dycus, interest in tract of land located in the J. G. Littleifeld and W. M. Cox surveys, $50.

Justice Court.

Fourteen fines were assessed during the week-end by Judge M. Bryant as follows:

Vagrancy 1, drunkenness and disturbing the peace 13.

Three were fined on charges of drunkenness Monday morning by Sam B. Jordan.

PRISON BREAK

(Continued From Page One)

ers wounded.

Twelve convicts, three of them inmates with previous escapes and many of them long termers, used smuggled pistols to take possession of Camp E, a sugar farm at the state penitentiary, during a Sunday afternoon baseball game.

They held guards at bay and terrorized visitors for half an hour; raided the arms lockers, confiscated a dozen shotguns, rifles and pistols and then shot their way to freedom.

The convicts left one of their own dead, Bill Stone, 28, of Dallas, as they sped away in a visitor's automobile which was abandoned at the canebreak. It was believed another convict was wounded.

Stone, serving 10 to 12 years for robbery, was picked off the automobile as the rioters drove past the prison gate by L. M. Fournet, superintendent of the commissary.

Two guards were killed during the fierce gun battle. J. W. Fletcher, foreman of Camp E. was shot down as he attempted to disarm Charlie Frazier, one of the ring leaders who is facing sentences in three Southwest states for murder and bank robberies. Arnold Davis was killed by convict fire about the same time.

Captain John A. Singleton was felled with two bullets after he had pleaded with the convicts to disarm. J. L. Watlington, engineer at the sugar farm, was wounded in the side and Ed Sharp a guard, received a bullet wound in the hand.

The convicts seized an automobile belonging to Simpson Reed, of Mamou, La., a visitor, piled into it and fled.

Fournet, after his battle with the automobile load of desperadoes, headed a company of guards in a commandeered car and pursued them to the canebrake, where they took to the thickets.

Nearly 400 convicts were quartered in the sugar camp at the time.

GOVERNMENT DEMANDS DEATH SENTENCE FOR JAP OFFICERS FOR ASSASSINATION PREMIER

BY GLENN BABB

TOKYO, Sept. 11.—(AP)—The state demanded death sentences today for the young naval lieutenants accused of leading seven fellow officers in the assassinaton of Premier Suyoshi Inukai in May, 1932.

Life imprisonment was asked for three others charged with active participation in outrages accompanyng the slaying, six-year sentences for three accused of being accomplices in the conspiracy, and three years imprisonment for the tenth.

Demand for the unexpectedly heavy penalties brought one of the major climaxes of the court martial, which began at the Yokosuka naval base Aug. 10, because all Japan wondered whether the government would dare to ask the extreme sentence for the accused, for whose support a powerful and ultra-patriotic movement seeking clemency has developed on the grounds that they acted on pure and patriotic motives.

Premier Inukai fell mortally wounded before the revolver fire of terrorists who entered his residence on May 15, 1932. Simultaneously five Tokio buildings were bombed.

The terrorists left handbills signed "The Young Army and Navy Officers' Association" which expressed disgust with the political parties and the way they handled internal and foreign affairs.

Eighteen uniformed young men were immediately arrested, and so great was the political uneasiness that the major stock exchanges closed and the cabinet resigned.

The prosecution demands do not represent the final judgment which the court delivers after summations by both sides and further deliberations, which may take weeks.

In the army court trying eleven cadets accused of being involved in the terroristic acts, the procurator asked eight-year prison terms for the accused.

Prior to the procurator's statement to the navy court, the defense attorney was permitted to present a mound of letters and petitions, totalling more than 46,000, demanding clemency. Some signatures were written in blood. One group sent their little fingers with a petition as evidence of intense feeling.

During the trial defense testimony was introduced to the effect that fear of "America's ambition" was reason for the slaying and that the assassin's motives were neither fascism nor radicalism, but increased nationalism.

Those for whom death penalties were asked are Seisshi Koga, alleged chief organizer of the terroristic conspiracy; Taku Mikami, commander of naval officers who assertedly invaded the premier's home, and Isamu Kuroiwa, charged with having fired at Inukai.

Life terms were asked for Hiroshi Yamagishi, Yoshio Nakamura, and Kakushi Murayama, all of whom confessed to being present at the assassination. Imprisonment for six years was asked for Kiji Ito, Haruo Oba, and Masayoshi Hayashi. A three-year term was demanded for Michio Tsukano.

KILLED BY MOTOR

(Continued From Page One)

the fatal injuring of the man.

Jones is reported to have been picking cotton in the Kerens community and had been in Kerens during the week-end.

No funeral arrangements had been perfected Monday afternoon at 2 o'clock pending the arrival of relatives from LaRue, but it is expected that the body will be returned to LaRue for interment. Relatives are expected here Monday afternoon.

BALLOONISTS

(Continued From Page One)

mine what was wrong with the telephone line. When he saw the note he did not stop to repair the damage but proceeded with the search.

Barrett found the balloonists in a camp at Tower No. 38, a line man's outpost, about five miles from where he discovered the note. He gave them such food as he had and returned to repair the line.

Both Van Orman and Trotter were in bad shape, Barrett reported to the head office of the Ontario Hydro-Electric company in Sudbury. Their clothing was cut to ribbons and the soles of their shoes worn through.

Happy to See Rescuer.

"I never saw two men in my life who were so glad to see another human being as they were," Barrett said. "They hollered with glee and hugged and kissed me as soon as they saw me."

Arrangements were started to provide the balloonists with food and other necessities and to get them to the Canadian National Railways in the vicinity of Laforest station as quickly as possible.

The information received here was that the balloon landed in the Temagami forest reserve Sunday, Sept. 3. The balloonists were not sure of the exact time but estimated it was about 4:00 p. m.

After an intense thunder storm the bag descended from a height of 8,000 feet, landing on a pine tree more than a foot in diameter. The tree snapped in two. The bag was badly damaged.

Maps indicated that perhaps the airmen were mistaken about the point at which they came back to the ground. They estimated that they had walked only about 15 miles, but the line of telephone poles does not run within 30 miles of the forest reserves.

Sick and Convalescent.

Claude Carr was able to be taken home Sunday from the Navarro Clinic, following an operation there recently.

Direct Nazi's Recovery Program

Keeping out of the limelight behind the government of Chancellor Adolf Hitler of Germany are these three men, who hold positions corresponding to our own NRA Administration. They are Fritz Thyssen (left), economic dictator, Dr. Kurt Schmitt (right), Nazi Minister of Economics, and Krupp von Bohlen (center), munitions magnate, who form the council steering Germany's recovery program.

Dallas Sheriff To Ask Bailey Who Aided Him

DALLAS Sept. 11.—(AP)—Smoot Schmid, Dallas county sheriff, will leave tomorrow for Oklahoma City to try to get from Harvey Bailey the story of who smuggled him the antiquated pistol and hacksaw blades he used in his escape from the county jail here one week ago.

The sheriff believed Bailey would name his aides because he was given a "raw deal" by the person who gave him the pistol. Close inspection revealed that the weapon was loaded with five cartridges, one of which was a trifle too long and would have jammed the chamber when an attempt was made to use it.

Investigators here expressed belief that if the government would agree to one condition—that it would not later turn him over to state authorities after his federal trial for the kidnaping of Charles F. Urschel—there would be no question of Bailey clearing up the mystery surrounding the pistol and blades.

BROTHER CORSICANA WOMAN DIED SUND NIGHT AT STREETM

Johnnie H. Jones, aged 30 y died suddenly near midnight S day at his home in Stretman the funeral services will be Monday afternoon at 4 o from the First Presby church in Streetman with ment following in the cemetery. Mr. Jones had ill health some time but was not expected by his friends.

Pallbearers will be John Archer Clark, Judge Johnson, Clyde Ellis, Henry Cole, John DuBose, Robert McGilary.

Oliver Burleson & Son of Wortham, funeral directors, had charge of the funeral.

South Carolina Awaits Answer On Cotton Plan

COLUMBIA, S. C., Sept. 11.—(AP)—South Carolina awaited word today from ten other cotton growing states, invited to send representatives to a mass meeting here tomorrow at which plans for boosting the price of the staple will be discussed.

Governor Blackwood, who is considering calling a ginning holiday in this state if the price does not rise, sent telegrams to the governors of other states inviting them either ot attend or send representatives to the meeting.

"The cotton situation is critical and your support and counsel are needed," the chief said.

Governors of Alabama, Mississippi, North Carolina, Georgia, Florida, Arkansas, Louisiana, Oklahoma, Tennessee and Texas were invited.

MILLIONS OF DOLLARS

Have Begun to Pour Into the Rural Communities

Are You Going After Your Share? If Not Why Not?

Time is fast approaching when the rural communities will be flooded with money, for the ploughed up cotton checks are being turned loose, with cotton being picked and now rolling into every community at a price that will bring prosperity back again.

Navarro County will gather more cotton this Fall than it did last, in addition to the ploughed up cotton.

There will be plenty of money to spend for the many things everybody has been doing without for so long a time.

Good times are fast approaching and if you want to go after your share of this money in the rural sections of your trade territory you will begin immediately to contract for advertising space in the **CORSICANA SEMI-WEEKLY MORNING LIGHT, which is the rural edition of the Daily Sun —covering a separate and distinct field than that of the Daily Sun.**

There is absolutely no over-lapping of the subscription lists of the Semi-Weekly Morning Light and the Daily Sun. Those that take the Daily Sun do not need the Light and those that take the Light do not take the Daily Sun.

If you want to cover your trade territory thoroughly you will have to use both of these home newspapers that are in waiting to carry your store news into the thousands of anxious homes that will now have money to spend. You can make up for lost time now - - - so it behooves every wide-awake merchant and business man to get busy and advertise in the Semi-Weekly Morning Light.

Just think about it—You can bring your advertising copy to the office of these two newspapers and almost in instant's notice your store news will be taken direct into the homes of thousands of subscribers in your trade territory where buyers are waiting to take advantage of the news in the advertising columns of the Light.

CLASS SCHEDULE FOR HIGH SCHOOL FOR ENSUING TERM

ASK STUDENTS TO CALL AT THE HIGH SCHOOL BUILDING AND ARRANGE PROGRAMS

The schedule of classes for the Corsicana High School is published herewith in the Daily Sun. All other arrangements have been made for the opening. All students are to call at the high school and have their programs made before September 15. A number have already made programs. On the first day, which is Monday, September 18, the students will report to classes according to schedule and receive their books at their first recitations.

Students anticipating difficult program are urged to came early to have their programs arranged. Some important facts concerning the requirements for graduation were published yesterday in the Daily Sun. Students who did not read these facts should secure a Daily Sun and read them.

New students must be classified and admitted before September 15 if they expect admission on the opening day. New students who are interested in school and are desirous of going good work will come to the high school and have their programs made before Friday, September 15. All programs will have been made and the teachers will meet their classes in regular schedule on Monday, September 18.

CORSICANA SENIOR HIGH SCHOOL

of Barry have returned home after a visit this week with Mrs. Woodruff's parents, Mr. and Mrs. Jub Calame.

Dr. K. W. Sneed nad Henry Meador, Jr., were in Corsicana Tuesday evening.

Relieves Women's Pains

Here is an example of how Cardui has helped thousands of women:

"I was very thin and pale," writes Mrs. F. H. Scott, of Roanoke, Va. "I suffered from weakness and a severe pain in my back. This pain unnerved me, and I did not feel like doing my work. I did not care to go places, and felt worn, tired, day after day.

"My mother had taken Cardui, and on seeing my condition she advised me to try it. I have never regretted doing so. I took three bottles and it built me up. I gained in weight, my color was better and the pain left my back. I am stronger than I had been in some time."

Cardui is sold by local druggists.

Goings and Comings Of Fairfield Folk and Their Relatives

FAIRFIELD, Sept. 9.—(Spl.)—Misses Joy and Joyce Kirgan and Leah Sessions spent the week end with Mrs. George Stubbs at Wortham.

Get Rid of Malaria!

Banish Chills and Fever!

To conquer Malaria, you must do two things. (1) Destroy the infection in the blood. (2) Build up the blood to overcome the effects and to fortify against further attack. There is one medicine that does these two things and that is Grove's Tasteless Chill Tonic! The tasteless quinine in Grove's Tasteless Chill Tonic destroys the malarial infection in the blood while the iron builds up the blood. Thousands of people have conquered Malaria with the aid of Grove's Tasteless Chill Tonic. In addition to being a noted remedy for Malaria, it is also an excellent tonic of general use. Grove's Tasteless Chill Tonic is pleasant to take and contains nothing harmful. Even children like it and they can take it safely. For sale by all stores.

TWO MEN SENT TO COUNTY FARM IN COTTON THEFTS

Two men are on the county farm working out fines assesed in two cases for alleged seed cotton theft by Judge T. A. Crowley of Kerens and another is in the county jail and is facing two theft charges transferred from Judge Crowley's court to the county court as a result of investigations conducted by Navarro and Henderson county officers Friday after several farmers of northeast Navarro county had reported loss of seed cotton from their fields.

One man was arrested by J. R. Horn near Oak Grove and the other two men were trailed to a point near the Henderson-Van Zandt county line where they were arrested late Friday afternoon by Deputy Sheriff Mack Lawrence, Constable A. H. Holloway and Deputy Constable Bud Burleson of Navarro county and Deputy Sheriff Jepson of Henderson county.

Mr. Harn lost about 275 pounds of cotton, J. O. Sessions, Bazette, county commissioner, lost 250 pounds and Jess Tyner lost approximately 300 pounds of cotton.

The two men taken to the county farm early Friday night are reported to have made statements of the affair and entered pleas of guilty before Judge Crowley. The man brought to the county jail Saturday morning by Constable A. H. Holloway declined to plead guilty in the Kerens justice court.

One of the two men arrested in the seed-cotton case investigation was wanted at the county farm for escaping before he had worked out an old fine.

Justice Court.

Three were fined on vagrancy charges Thursday afternoon by Judge M. Bryant.

WALLACE REPORTS PROGRESS ON HOG PURCHASE PLANS

WASHINGTON, Sept. 9.—(AP)—Secretary Wallace said today he had authorized 135 packing plants at 83 processing points to handle the pigs and sows slaughtered under the emergency hog marketing program.

Under the contracts, he said in a statement, the agriculture department is given a credit of five cents per hundred pounds, live weight basis, for sows killed and 15 cents for pigs.

Wallace hopes that 4,000,000 pigs and 1,000,000 sows will be slaughtered by October 1, to aid the producers and to provide meat at low cost for the needy. Thus far, approximately 2,000,000 pigs and 50,000 sows have been marketed.

The packing establishments are to process the sows into edible products for 30 cent per hundred pounds. The secretary of agriculture is given a credit of 35 cents per hundred weight for lard and by-products resulting from the killing operations which are to be retained by the processor.

The edible products also are to be credited to the secretary's account and are to be held in storage until distributed to the national emergency relief administration.

The charge for butchering and cutting up edible pigs of 80 to 100 pounds is 60 cents per hundred weight. The processors are to give a credit of 15 cents per hundred pounds to the secretary.

Packing house concerns under contract which are located at more than one point are Armour and Company and Swift and Company, each with 15 authorized plants; Cudahy Packing company, nine; Wilson and Company, five; Hygrade Food Products, Inc., four John Morrell and Company and Jacob Dold Packing company, three each; and Eckhardt Packing company and Kingan and Company, two each.

FIGURES SHOW TROUBLES FARM ADJUSTMENT PLAN

WASHINGTON, Sept. 8.—(AP)—Figures which show why the farm adjustment administration's task of raising cotton prices has been a hard one were issued today while experts assembled material for the second crop reduction on the staple.

The carry-over, or surplus, which was the prime motive for the reduction campaign this year and the ones contemplated for 1934 and 1935, stood at 8,170,000 bales in the United States on August 1.

This compared with a carryover of 9,581,000 bales on the same date last year but the average for the past five years was only 4,944,000 and for the 10-year average 3,868,000.

Statistics on consumption in this country in the year which ended August 1 showed 6,003,000 bales used, an increase of 1,250,000 or 26.5 per cent over the season of 1931-32. Approximately 5,000,000 bales went through the mills in 1930-31 and 5,803,000 in 1929-30. The world consumption of American cotton for the 1932-33 season is estimated at around 14,000,000 bales, while in 1931-32 it was 12,300,000 and in 1930-31 it dwindled to 10,900,000.

The month of July saw 600,000 bales consumed by domestic mills, the highest for any month on record in any year. But at the farm administration, the fact a processing tax and higher wages in cotton textiles were then in prospect, was believed to account for a good bit of the unparalled activity.

The July cotton prices reached the highest level for almost three years. On July 18, the staple was selling at 11.51 cents per lint pound but on August 30, it had declined to 9.13 cents and it has remained around that level since.

Gold Price Lower.

In terms of gold prices, however, cotton in ten principal markets for the week ending August 26 was 6.56 cents, as compared to the currency price of 9.10.

One factor which has increased exports of American cotton, in July especially, is the Japanese boycott on Indian cotton in retaliation for the higher Indian tariff on non-British goods. Japanese buyers took over 200,000 bales of cotton month before last but agriculture department experts warned that if Japan continues its boycott of Indian cotton, American cotton will meet greater competition from India in European markets.

Present indications, officials say, are than foreign production of cotton will increase this season over last, although the extents remains to be determined.

Fairfield Defeated Mexia Recently In Hectic Ball Game

FAIRFIELD, Sept. 8.—(Spl.)—W. Childs celebrated the arrival of a new ball player in his home recently by knocking two home runs, batting in six runs and scoring four runs off Mackie and Siler in the Mexia-Fairfield game at Moody Park last Sunday. The final tabulation was 17-11. Kirgan rendered valiant aid to Childs by slamming out four singles and a fielder's choice in five trips to the plate.

Batteries for Mexia, Mackie, Siler and Thompson. For Fairfield, Bailey, Mnchew and Nelson.

Sunday, at Moody Park, the hottest game of the season will be played, when Fairfield and Teague put two practically semi-pro teams in the diamond to wind up the fireworks.

Big Increase In Farm Income For This Year Seen

WASHINGTON, Sept. 9.— An increase of more than 000,000 in the gross farm this year as compared with was forecast today by the ment of agriculture if the improved demand continues.

On the basis of a prelim estimate, the bureau of tural economics said the this year would approximate 360,000,000 against $5, last year.

The 1933 estimate consists $6,100,000,000 from the farm produce, plus at least 000,000 in rentals and benefit ments by the agricultural ment admiistration.

Most of the incerase was uted to better prices for Prices of most types of have averaged slightly lower year than in 1932.

CORSICANA, TEX., SEPT. 12, 1933

THE ST. LOUIS EPIDEMIC

The seriousness of the "sleeping sickness" epidemic in St. Louis is evidenced by the presence there of Dr. Hugh S. Cumming, surgeon general of the United States public health service. Several members of the public health service staff already had been assigned to duty in St. Louis. Dr. Cumming, soon after his arrival, summoned two other members.

Nearly 50 lives have been taken in the epidemic which has persisted for several weeks despite the efforts of some of the country's most able physicians to check it. A few cases of the baffling disease has appeared in adjoining states, but there has been no rapid spread beyond St. Louis.

Neither its cause nor how it is spread has been discovered. Both lines of investigation are claiming the attention of trained scientists. Success of either would provide a base from which to attack the epidemic and perhaps the disease itself.

The physicians engaged in the fight are striking in the dark. Although the disease has been long studied here and in Europe, little of value is known about it. The St. Louis outbreak is said to be the most serious ever experienced in this country.

The fight will be watched with anxious interest by the entire nation. Although the spread of the epidemic is not yet such as to cause general alarm, unless means to curb it soon are found this may occur.

ICKES CALLS FOR SPEED

The slowness with which public works projects under the public works program are getting under way has been a discouraging feature in connection with the national government's recovery plans.

But this condition is to be corrected quickly, if Secretary Ickes has his way. Immediate employment has been called for by the administrator of the $3,300,000,000 federal fund set aside for creating jobs. Serving notice that no unnecessary delay would be permitted, Secretary Ickes announced that he wants idle men "moved swiftly from relief to payrolls."

This policy should have been adopted at the start. There has been too much delay in beginning actual construction on projects. Some delay, of course, was inevitable as projects had to be recommended and approved and then bids advertised for. The administrator indicates now, however, that "immediate employment" is to be an important consideration in approving projects.

"It is not sufficient," he said, "that projects submitted must have permanent social benefit and qualify under the announced policies of the public works administration. The possibility of furnishing immediate employment is an essential for projects submitted to us for consideration."

Projects, he declared, should be examined for approval "from this point of view" in making allotment of funds.

In attempting to speed up the beginning of construction work, the administrator is striking an important blow at unemployment. The money available for projects is serving no useful purpose lying in the banks. Not until it is in the pay envelopes of workers will it be of help to the recovery program.

It isn't that misery loves company: It is just hateful enough to want others to be miserable as it is.

JUST FOLKS
(Copyright, 1932, Edgar A. Guest.)

Future Growth.

He who doubts the future doubts the past
And beaten is before the struggle starts.
Tomorrow is the field for fighting hearts,
A scene unlighted now but wide and vast
Where men in splendid roles shall soon be cast
And boys today shall rise to noble parts.
Many remember when men rode in carts
And fancied ten miles to the hour was moving fast.

Tomorrow holds adventure for us all,
Where now we see but dimly skies shall clear.
No man can tell what next old fact shall fall
Nor what discovery mark the coming year,
But from the past this truth we can recall
Growth and achievement mark men's journey here.

First shipments of peaches and apples from Georgia orchards in 1933 were reported the same day.

HELPING LARGE NUMBERS.

President Roosevelt has decided to continue the work of the civilian conservation corps through the winter. This will mean jobs for 300,000 or more young men, and to that extent will help relieve the unemployment situation.

How great will be the relief needs confronting the country the coming winter can not yet be known. Employment is increasing but it can not increase rapidly enough to take care of all persons in need of jobs. Knowledge of this fact no doubt was a factor in causing the president to order a six-months' extension of the conservation work.

Several good purposes are being served by the conservation program. Something is being accomplished in conservation. This feature of the work, however, is not its most popular part. The main purpose in launching the undertaking was to provide work for the unemployed. The present enlistment is placed at about 300,000, which means that this number of formerly idle men are now earning their own living and contributing to the support of others. Had the government not supplied work for them, they would have been thrown upon charity. In addition to earning a living, they are benefiting in another way. The outdoor, healthful employment is giving them sturdier bodies.

As many as possible of the men now employed will be encouraged to quit the corps and obtain private employment in order that others who have not been able to find room in the forestry work may enlist for the second six-months' period. This is a wise policy, which will permit extension of the benefits of conservation employment to a greater number of men. Some of the camps will be moved from the colder areas of the country to warmer sections to escape the rigors of winter.

It is to be hoped that conditions soon may permit abandoment of the form of relief represented in the conservation work, but until the employment emergency passes it can fill a very important need. It should prove especially helpful during the winter months.

INFLATED CURRENCIES.

Nations faced with long-term debts of large proportions behave differently, depending upon their notions of financial ethics and considerations of expediency.

Soviet Russia wiped out her huge war debt by deliberately inflating the currency until it became worthless. Germany, bankrupt after the war and disorganized by the revolution, could not pay her national debt so followed the example of Russia. Inflation succeeded in a few weeks where the taxpayers could not in several generations.

France and Italy wiped out their post-war internal debts by depreciating the value of their currency about 80 to 75 per cent, respectively, and then stabilizing. The government then settled for 20 to 25 cents on the dollar.

Even Great Britain came to it. After long resisting the temptation to slide out from under its internal debt and after stubbornly maintaining the value of its currency, the British government finally surrendered to the inevitable. The country's creditors got between 60 and 70 cents on the dollar.

For months the outside world has been expecting Uncle Sam to douse his scruples and take either the inflation or devaluation way out. He has gone off the gold standard and is refunding the debt with new issues at lower interest rates. Inflation will come as a last resort, and if it does come it will be managed inflation, with a purpose more honorable than debt evasion.

UPSETTING THE BALANCE
—By Clive Weed

IS CRIME DECLINING?

An encouraging development in connection with the crime situation in the United States is contained in a report by the department of commerce dealing with the number of persons committed to penal institutions last year.

The figures, received from 44 states and the District of Columbia and covering 99 state prisons and reformatories, seven federal prisons and six federal prison camps, show the first decline in the number of commitments since the annual census of prisons was begun in 1926. A total of 66,348 persons were committed last year as against 69,488 the previous year. This was a decline of 4.5 per cent. Between 1930 and 1931, there was an increase of 9 per cent, which makes the figures for last year all the more impressive.

Officials clothed with the pardoning power continued to make use of it last year notwithstanding the criticism that has been aimed at the exercise of such clemency as a factor in the increase of crime. Of the total of 71,014 persons discharged from prisons, 36,518, or 51.4 per cent, were paroled and 25,650, or 36.1 per cent, discharged at the expiration of sentence. The remainder escaped, were pardoned or received commutation of sentence.

The number of persons sent to prison may or may not be an accurate reflection of a decrease in crime. That it does mark a drop, though, is not an unreasonable conclusion, however surprisingly this may seem in view of the large number of lawless acts reported daily by newspapers. The sensational nature of many of the crimes coming to public attention may be responsible for creating a false impression as to the number.

Notwithstanding the apparent decrease, the distressing fact remains that there is entirely too much crime in the United States. The seeming improvement in conditions should not cause any relaxation of effort on the part of federal and state authorities in curbing lawlessness.

N.R.A. QUESTIONS AND ANSWERS

Will the psychological excitement created by the NRA "drive," together with credit expansion facilities, tide the industrialist over the crtical period while slow-moving economic forces adjust themselves to and establish a balanced economy at a new level of prices?

Will employers take future profits on trust, or will the increase of costs be such as to give a dangerous jerk to the economic machine?

In short, can central dictatorship for a short period and in exceptional circumstances override, or perhaps we should say accelerate, economic laws?

If the present plan fails to produce the goods, will the nation resort to more overt and direct inflation?

These are the questions America is putting to herself and all the world is putting to America. The speed of events is so great we will not be long in waiting for the answers.

Had not the national administration felt that it could safely answer the first question in the affirmative it would not have ventured upon such a comprehensive plan of national recovery. Looking backward, it already finds its course and confidence justified.

Some employers will take future profits on trust, others would if they could and General Johnson will see to it that the others do.

The third and fourth questions can be answered in the affirmative.

LESS CONTENTIOUS

For some time it has been evident that hostilities between the old and the young are in abeyance. The two generations are equally weary of the fray, more than a little ashamed of their reciprocal atrocities, not unreceptive to the idea of a negotiated peace. It is the terms of peace that remain to be drafted.

A kindlier world is in the making. Mankind with the passing of the years is lifting itself out of cruelty, intolerance, misgovernment and corruption. Progress is away from venality in business and politics and toward the softening of manners and a recognition of human worth.

But a century back there were two hundred offenses punishable with death in England, and as late as the last century there was an amazing degree of cruelty, or oppression, of immorality and of corruption which would not be tolerated today.

Therefore the new understanding and sympathy between the old generation and the new. A new spirit of give and take prevails Tomorrow may find all generations working for the good of all, both in government and in business.

And, after all, the young are no more to be condemned than the old. If this generation lacks the grace and gentility of olden times, has it the public hangings and torture chambers of the wig and lace period.

GANGSTERISM ABROAD

The threat of gangsterism and racketeering doesn't seem to worry French officials.

The heads of two banks and several cafes in Paris recently received letters in which the writers threatened to bomb their places of business unless certain sums of money were deposited in designated places. Although the police were spurred to sharper watch, no alarm was evident.

"Neither cafes nor banks will be blown up in Paris," said L'Intransigeant, apparently reflecting official opinion, "because, in order for gangsterism and kidnaping to become national industries, there must be assured immunity, complicity on the part of the authorities and complacent public opinion."

This summing up of the situation is not far from the truth, as developments in the United States have proved.

It would be interesting to see how France and other European nations, noted for keeping crime at a minimum, would deal with an outbreak of the American brand of gangsterism. Apparently neither their own criminals nor fugitives from the United States yet have had the courage to challenge the authorities on the issue.

A bill making possession of a sub-machine gun a felony is before the New York assembly as part of the program of Governor Lehman in his war against gangsters. Should it pass, it would only remain then to make gangsters observe the law.

A propagandist is a man who can make a good idea look so dreadful that frightened fools opposes it to save rogues.

We cannot stop the manufacture of gambling devices. Imagine trying to farm without a plow or seeder.

A good live committee can raise $2.85 for a worthy cause while using only $10.50 worth of gasoline.

Marriage is the ceremony that cures his desire to have her sing for him.

STUDENTS OF HIGH SCHOOL MAY CHECK PROGRAMS SATURDAY

INFORMATION CONCERNING SCHOOL OPENING FOR PARENTS AND PUPILS

High school students may check their programs in Saturday's Daily Sun.

1. Planning Your High School Work.

Parents should keep in touch with the schools and should advise with their children about the best selection of courses to take in high school. Many pupils fail to get admission to the college or university which they desire because they fail to do a high quality of work in high school, or because they do not choose the courses which will fit them for that particular institution. The requirements for college entrance are not identical in every case. If the parent and pupil will decide by the beginning of the senior year what college or university they exepct to patronize, much valuable advice can be given by the principal of the high school or by the teachers. This service is placed at the disposal of all patrons of the schools.

2. Definition of Unit.

A unit represents nine months of study in a high school subject, constituting approximately a quarter of a full year's work. A four-year secondary school curriculum should be regarded as representing not more than sixteen units of work.

3. Units For Graduation.

In order to graduate from the Corsicana Senior High School, a student must complete sixteen units of high school work as defined above. Four of these units must be in English, two in history (world history and American history), one in science and two in mathematics.

Sewing and cooking are not accepted as the required unit in science. If the pupil expects to enter college, he should take two units from the Foreign Language group or the Natural Science group. In addition to this, he should choose enough units to give him a total of fifteen accepted units for college entrance.

4. Entrance to University of Texas.

Since the entrance requirements to a college or university are about the same, I will give the entrance requirements of Texas University in order that a student expecting to enter a college or university after graduating from high school may be guided in wisely selecting his high school subjects.

I. Entrance requirements to the College of Arts and Sciences and College of Pharmacy:

	Units
(1) English (required of every student)	3
(2) From the mathematics group in Section A below	2
(3) Two units from each of any two of the three groups in Section A below (Foreign Language group, Natural Science group, Social Science group) total	4
(4) Additional from any group or groups in Section A	2
(5) Additional from Section A, or from Section B, or from Sections A and B together	4
Total	15

II. College of Engineering:
The unit requirements for admission to the College of Engineering are as follows:

	Unit
(1) English	3
(2) Mathematics: Algebra 1 1-2; Plane Geometry 1; Solid Geometry 1-2	3
(3) Two units from each of any of the three other groups in Section A (Foreign Language Group, Natural Science group, Social Science group), total	4
(4) Additional from any group or groups in Section A	1
(5) Additional from Section A, or from Section B, or from Sections A and B together	4
Total	15

Section A.

(The units column shows the number of units that may be offered in each subject):

Subjects—	Units
English group—	
English	3-4
Foreign Language Group—	
Latin	2-3-4
Spanish	2-3
Mathematics Group—	
Alberba	1-1 1-2-2
Plane Geometry	1
Solid Geometry	1-2
Trigonometry	1-2
Natural Science Group—	
General Science	1
Biology	1
Chemistry	1
Physics	1
Social Science Group—	
Ancient History	1
Modern European History	1
World History	1
American History	1
Civics	1-2
Economics	1-2

Section B.

(In no case will more than four units be accepted from Section B).

Subjects—	Units
App. Math.	1-2
Com. Arith.	1-2
Bookkeeping	1
Drawing	1-2 -1
Home Economics	1-2 -3
Manual Training	1-2 -1
Music	1
Shorthand and Typewriting	1

5. Affiliation.

The Corsicana Senior High School is a member of the Southern Association of Secondary Schools. This membership entitles all graduates of the high school who meet college entrance requirements the privilege of entering any college or university in the Southern States without examination. This privilege is also entended by all leading universities in the United States except those that permit entrance by examination only. The units of affiliation which have been granted to the Corsicana Senior High School are as follows:

Subjects—	Units
English	4
Ancient History	1
Modern History	1
World History	1
English History	1
American History	1
Civics	1-2
Economics	1-2
General Science	1
Biology	1
Chemistry	1
Physics	1
Com. Arith.	1-2
Algebra	2

Trigonometry	1-2
Applies Math.	1-2
Latin	4
Spanish	3
Home Economics	3
Mechanical Drawing	2
Manual Training	2
Bookkeeping	1
Shorthand	1
Typewriting	1-2

6. Quality of Work

The Universities are stressing the quality of work done by high school students. Quality is more important than quantity. A course thoroughly mastered is worth more than one completed with low or even medium grades. It is becoming more and more prevalent in these institutions to deny entrance to students who are in the lower one-fourth of their classes.

As a rule students who do poor work in high school do poor work in the universities. A student ranking in the lowest quarter of his graduating class is strongly advised by the universities to complete an additional year of preparation in a junior college before applying for admission. If, however, after due deliberation, his parents still wish to have him enter at once, he will be admitted and given all the privileges accorded any other student, but he will be placed under what is termed 'special observation," and will be required to pass in the minimum amount of work expected of other freshman to be entitled to remain in school.

Daughter Held In Hammer Death Of Her Mother

UVALDE, Sept. 8.—(AP)—The hammer slaying of Mrs. Albert Sidney Johnson was charged today against her daughter, Beulah Johnson, 28. The daughter was held without bond.

County Attorney D. W. Suttle, who filed the murder charge, said he obtained a statement from the daughter. Mrs. Johnson was struck five times on the head with a hammer, allegedly after an argument with her daughter at their Uvalde home.

FUNERAL SERVICES FRIDAY AFTERNOON FOR MRS. SMITH

Funeral rites for Mrs. Sibble Allie Smith, 73, of Bronwsville, who died at the Navarro Clinic Wednesday night at 8:30 o'clock after an illness of three weeks, were held from the chapel of the Corley Funeral home Friday afternoon at 12:45 o'clock and the body was forwarded to Brownsville early Friday afternoon where interment is scheduled to be made Sunday.

The services were conducted by Rev. John W. Bergin, pastor of the First Methodist church, assisted by Rev. P. Martin Baker, pastor of the Third Avenue Presbyterian church.

Mrs. Smith had spent the summer with her daughter, Mrs. E. S. McGee, here.

Surviving are four daughters, Mrs. Elmore Anderson Pueblo, Colo., Mrs. E. S. McGee Corsicana; Mrs. Phil Price, Childress; and Mrs. Emmett Dodd, Brownsville; four sisters Mrs. J. D. Roberts, Beaumont; Mrs. Bill Golding, San Antonio; Mrs. J. E. Autry, Tenafly, N. J.; and Mrs. T. N. Davenport San António; and a number of grandchildren, and great-grandchildren. One grandson, John Murray McGee, resides in Corsicana.

Pallbearers were E. E. Babers, J. G. Comfort, W. A. Babb, Ralph Tatum, C. A. Tatum Luther A. Johnson, R. A. Caldwell, J. B. Fortson, T. H. Benton and Murphy Williams.

WALTER ROBERTS, LONG RURAL MAIL CARRIER, TO RETIRE

WAS FIRST CARRIER RURAL ROUTE OUT OF CORSICANA OVER 30 YEARS AGO

Walter Roberts, carrier on rural route No. 6 out of Corsicana, will be officially retired from the mail service on October 1. On that date he will have served 30 years, 7 months and 29 days as a rural mail carrier. He was the first rural mail carrier out of Corsicana, having inaugurated the service here.

When Mr. Roberts started as mail carrier the post office was in the Damon-Beaton building on the corner of Collin and Main streets that is now occupied by L. V. Majors and Robert Steil and the Johnson Drug store. J. W. A. Clark, postmaster.

Through the 30 years of service Mr. Roberts has seen the rural mail service gradually expand from the two wheel cart, all day route to the present day delivery by automobile in which much longer routes are served more quickly.

The route now being carried by Mr. Roberts will be combined with routes 2, 4 and 5.

Mr. Roberts is now on a vacation that will extend until October 1 and will not be back on his route again. He has made his last round but his official retirement will not be effective until Oct. 1.

LATEST ESTIMATES COTTON REDUCTION CAMPAIGN GIVEN

WASHINGTON, Sept. 8.—(AP)—The latest estimate of the results of the cotton reduction campaign are that 10,396,000 acres were taken out of production this year.

This is a little more than one-fourth of the cotton in cultivation on July 1, the crop reporting board said today.

Most of the cotton already has been plowed under, and the government has said its agents will see that the plow is put to the remainder. The reporting board said, however, final figures on the number of acres destroyed might vary somewhat from the estimates today because proof that all the contracts to reduce has been carried out has not yet been received.

The estimated number of acres taken out of cultivation in each state, with the percentage of acreage of the total amount in cultivation on July 1, which it represents, follow:

Virginia 10,000, 12.8 per cent; North Carolina 230,000, 17.4; South Carolina 426,000, 23.9; Georgia 695,000, 24.2; Florida 23,000, 18.9: Missouri 110,000 24.4; Tennessee 260,000, 22.3; Alabama 810,000. 25.0; Mississippi 925,000, 23.5; Louisiana 450,000, 24.9; Texas 4,305.000: 27.3; Oklahoma 1,160,000, 28.1: Arkansas 925,000; 25.4; New Mexico 30,000, 25.9; Arizona 21,000. 15. 3; California 13,000 5.9; other states 3,000, 15.8.

E. M. Clayton Now Manager of Inabnit Drug Company Here

E. M. Clayton, formerly of Waco, has accepted the management of the Inabnit Drug Company, and has entered upon his new duties.

A number of years ago Mr. Clayton was connected with the Crescent Clothing Company here and has many friends in this city who will be glad to learn of his return. He will move his family to Corsicana in the near future.

SEASON OPENER TO BE PLAYED DALLAS IN COUPLE WEEKS

SPEEDY AND TOUGH ELEVEN IS PROMISED AS THE NEWCOMERS PERFORM

An intensive drill in formations and plays was given the several teams at Tiger Field Friday afternoon by Coaches John A. Pierce and Jimmie Gardner as they concluded the first week of work for the entire squad. Last week was devoted to punters and centers.

The players were sent through the formations and signals in a walk in an effort to time the plays in order that the boys would know exactly their assignments, etc.

The mentors intimated that plenty of scrimmage would be given the prospective players next week, beginning Monday afternoon ,as they prepare for the opening of the grid season on the Fair Park Stadium gridiron in Dallas, two weeks hence, against the Forest Avenue Lions, one of the leading elevens of the North Texas metropolis for the past several years.

The Bengals will be defending the championship of the University of Texas Interscholastic league won last year, although there will not be a player on the club that was a regular on that eleven.

Corsicana will open the home season here on the night of Sept. 29 against the Highland Park Highlanders.

Have Speed Merchants.

The club this season will be a much speedier aggregation than the club that crashed through to the championship last winter, with a stronger backfield. The only question that arises in the minds of the mentors and the close followers of the game is whether the line will come up to the specifications necessary for a good club.

Everything points to a fine club this season despite the wrecking of the 1932 aggregation by graduation and the eight semester rule which went into effect for the first time this year.

Plenty of work and intensive training will be the orders of the coaches for the remaining two weeks before the beginning of the toughest schedule in Corsicana high's history. Coach Pierce told the boys Friday afternoon that there would be plenty of work beginning Monday afternoon and that he would "find out who were men and who were boys," intimating that there is a likelihood that the squad will be considerably "weeded out" and that the selection of the boys to be on the first squad would likely be determined within the next few days. However, the starting lineup will likely not be determined until the night of the first melee.

COMMISSIONERS OF FREESTONE COUNTY ORDER BEER VOTE

FAIRFIELD, Sept. 11.—(Spl.)—The Freestone county commissioners' court Monday ordered a county-fide and also several precinct elections to e held Saturday, Sept. 23, to determine whether the sale of 3.2 beer will be legalized in Freestone county and in the various precincts following the setting aside of the Aug. 26 elections and the issuance of a writ of mandamus by Lex Smith, judge of the 87th judicial district court of Texas, Saturday at the conclusion of a hearing.

The commissioners' court and other county officials had given notice of appeal from the ruling of Judge Smith, but withdrew the appeal notice Monday and ordered the election, it was stated.

Freestone county voted "dry" in the Aug. 26 election by only a few votes. A petition signed by several hundred persons asking for the holding of the election Aug. 26 had been refused by the commissioners' court and then the hearing before Judge Smith was held Friday and Saturday.

It was alleged that the wording on the ballots used in the county and precinct elections Aug. 26, when the state, 18th and other amendments were sumitted, did not conform with the wording authorized by the legislative enactment calling for such an election.

THREE VICTIMS OF CREVASSE FOUND BY SEARCHING PARTY

PORTLAND, Ore., Sept. 9.—(AP)—The bodies of three Portland men, victims of the icy slopes of Mount Jefferson, were to be brought here today as the final episode in one of the most heroic searchers ever conducted in the mountains of Oregon.

Davis McCamant, 37, Don Brukhardt, 23, and John Thomas, 19, who attempted to scale the almost inaccessible east slope of the precipitious 10,500 foot peak Labor Day, died in a crevasse a few hundred feet below the summit.

Discovery of the tragedy came late yesterday when 11 members of a searching party explored the last of the many dangerous crevasses that dot the mountainside and found the bodies.

Searchers said the climbers were swept down the mountainside by a rush of dislodged rocks, snow and ice. Each had suffered a broken neck and apparently had been carried several hunded feet by the avalanche before dropping into their icy tomb. Their bodies were covered with snow.

Searchers battled their way up the tortuous climb, hindered by 16 inches of fresh snow and a 40-mile gale.

The bodies were to be brought out of the mountains by pack train.

MEDICAL SCIENCE MARSHALS ITS FORCES FOR CONCERTED SLEEPING SICKNESS ATTACK

By The Associated Press.

Medical science was marshalling its forces today for a concentrated attack on the problem of "Sleeping sickness" seeking in particular to determine the method by which it has apparently been transmitted from one person to another in the St. Louis area where 85 have succumbed to the disease.

Aided by numerous rabbits a dozen monkeys and ten thousand adult mosquitoes, army medical experts took over the task of determining whether the disease is transmitted by insects. Attempts to transmis the disease from human vicims through the medium of the insects were on the program with Major James A. Simmons of the army medical school in Washington and Major V. H. Cornell, curator of the army medical museum, in charge. An old abandoned hospital at the Jefferson barracks was the scene of their activities.

Major Simmons said he was taking a "long shot" in an attempt to link the study of encephalitis with previous army investigations of equine encephalomyelitis and herpes-encephalitis.

Meanwhile, reports of isolated cases of "sleeping sickness" came from widely separated sections of the nation. The Minnesota state health department reported there had been 20 deaths out of 28 cases since January 1, with four scattered cases under medical care at present, Dr. A. J. Chrsley, state health officer, however, said the situation was no worse than in any other year since 1919, when the first cases came to the health department's attention.

One death was reported from Dublin, Ga., and another from Kensha, Wis. There are scattered cases in Wisconsin, but there was nothing in the situation to alarm residents of the Badger state. A death in London Ont., was attributed to "sleeping sickness."

While medical experts seek to throw light on the situation, Miss Patricia Maguire of Oak Park, Ill., continues her long sleep. begun approximately nineteen months ago. Latest reports from her ohme were that her condition remained the same.

UPWARD TREND OF RETAIL SALES CONTINUES DESPITE GENERAL ADVANCE IN PRICE

NEW YORK, Sept 8.—(AP)—The upward trend of retail sales has proceeded "unmindful of the general lifting of price levels" and the fall buying season has stimulated comercial activity into broader advances, Dun & Bradstreet, Inc., said today.

"While a concerted vigilance is being maintained for any curtailment of buying, no evidence of this condition is apparent as yet," stated the agency's weekly review. "In fact, a doubling of the wages of six months ago has not been an infrequent occurrence and with the two and a half millions who have been returned to the ranks of the wage-earners since March, the covering of deferred necessities alone has been so insistent that the price factor has lost some of its former predominance in the selection of merchandise.

The slack that appeared around mid-August in the upward line of business "gradually was tightened toward the close of that month, so that the impetus of the strong seasonal expansion is proving propitious in restoring its continuity."

"With the days of grace now passed for voluntary submission of codes as provided by the presidential edict, the more rapid rate of adoption from this point may make the progressive gains of the last fey months pale into insignificance under the stronger light of the more spectacular achievements of the period which lies immediately ahead.

"The new attitude toward spending alone will afford a succor of no mean proportions to the indecisions of some merchants who had become restive because generous stocks acquired on a rising wholesale market were not disappearing into consuming channels as rapidly as was desired."

POLISH ENTRANTS IN BALLOON RACE REACH OUTER WORLD

RIVIERE A PIERRE, Que., Sept. 11.—(AP)—Refreshed after two nights of sound sleep and a number of hearty meals, Captain Francisek Hynek and Lieutenant Zhigniew Brznski, Polish balloonists who landed in the wilds of the Laurentian mountains, were today eager for news of their rivals in the James Gordon Bennett balloon race.

The officers suffered acutely from hunger and cold in a 90-mile tramp through forest and mountain from their landing place to the railway.

Their balloon settled down in the forest last Monday and Saturday night they reached the line of the Canadian National Railways and were picked up by section men at a flag station 10 miles north of this Portneuf country village.

Having covered a distance of more than 800 miles, the Polish balloonists claimed an unofficial lead in the race.

Until the fate of the missing United States balloon has been established, however, they cannot be proclaimed the winners.

Bids For Graders And Tractors Are Received Monday

Bids for graders and tractors from a number of machinery companies were opened Monday morning at the regular meeting of the Navarro county commissioners court. Commissioner M. W. Roberts of Precinct 3, the Dawson area, plans to purchase a new tractor and grader.

No definite action on the bids was taken at the morning session, the machinery representatives being advised that the bids would be taken up at the Monday afternoon meeting.

Claims were allowed except as noted on the claim docket.

Routine business was considered.

State Singing Convention Will Meet in Cleburne

The state singing association convention will be held at Cleburne Saturday and Sunday, J. O. Sessions, county commissioner, stated Monday.

It is expected there will be several hundred singers from all sections of the state on hand.

A number of Navarro county people are expected to attend.

V. O. Stamps of Dallas is president of the association.

BODY OF CHILD IS FOUND CAMBRIDGE AFTER LONG SEARCH

CHILD LEFT HOME AT NOON FRIDAY FOR TRIP TO SHOE REPAIR SHOP

CAMBRIDGE, Mass., Sept. 9.—(AP)—The body of Margaret McCarthy, 10, of Somerville, was found in a clump of bushes in the exclusive residential section near the Harvard Theological school today. After a cursory examination police said she evidently had been strangled.

The body was found by Melvin Fowler, while on his way to work. The child's shoes were missing and the only clue the police could find was a bottle wrapped in a brown paper bag which was on the ground near the girl's head.

Detective Captain John J. Canney said the only marks on the child's body were on the right side of her throat and he believed them to have been caused by fingers.

The absence of the child's shoes made Canney and the other investigating officers certain she had been killed at some spot other than where the body was found.

About fifty men searched the neighborhood near the McCarthy home until late last night after the child's disappearance had led to reports that she had been kidnaped.

Margaret had been missing from the home of her parents, Mr. and Mrs. John J. McCarthy, since noon yesterday. At that time she left to go to a shoe repair shop of Albert Capone for a box of polish. Capone told officers tha tthe girl had bought the polish and left his place soon after her arrival. An appeal for aid in the search was broadcast to all greater Boston police last night but no trace of the child was found until Fowler made his discovery today.

KING FEISAL DIED OF HEART ATTACK IN BERNE HOSPITAL

LONDON, Sept. 8.—(AP)—An official dispatch from Bagdad today said that Crown Prince Ghazi, son of the late King Feisal of Iraq, had been crowned as his father's successor there today.

King Feisal died early today at Berne of a heart attack.

BERNE, Switzerland, Sept. 8.—(AP)—King Feisal of Iraq, a scholar and desert warrior who, with the aid of the romantic Lawrence of Arabia wrested a kingdom from the wreck of the Turkish empire during the World war, died in a Berne hotel t oadofyllliom in a Berne hotel today following a sudden heart attack. He was 48.

Death came on the heels of Assyrian troubles in Iraq, the youngest nation in the League of Nations family, which culminated in reports that 600 Assyrian Christians were massacred.

The king, broken in health, was deeply angered by these charges, which undoubtedly contributed to weaken his heart. He was gravely ill when he came here from Baghdad a few days ago and his physicians, although realizing that treatment in Switzerland was necessary, were apprehensive of his ability to stand the journey.

While it was generally known that he was gravely ill, his passing was a shock even to members of his entourage. His intention was to remain here two weeks and then return to his capital, Bagdad.

He was accompanied here by his brother Ali, who is in charge of funeral arrangements.

King Feisal was born in 1885 at Taif, the son of Sarif Husian and a descendant of Ftaimah, the only surviving child of the Prophet. He was educated privately in Istanbul.

After the great war he played an important part with General Allenby and T. E. Lawrence in Arab revolts. In 1921 he was elected to the Iraq throne by a plebscite.

Flags on Swiss govenment buildings were put at half mast.

King Feisal's heir is Prince Ghazi, who is 21.

RAISE OBJECTIONS TO PRICE CONTROL FEATURES OF CODE

ADVISORY BOARD OF CONSUMERS SEEKS DELAY IN RETAIL AGREEMENT

By JAMES COPE
Associated Press Staff Writer.

WASHINGTON, Sept. 9.—(AP)—Newly raised objections of the NRA consumers' advisory board to price control provisions in codes of competition engaged the attention of the industrial administration today while it awaited the filing of objections by bituminous coal operators to the new compact drafted for the industry by Hugh S. Johnson.

The board asked that the master code for retail trade be held up pending investigation by a special committee into the entire subject of minimum price control, which it regarded as a major question of policy.

However, Deputy Administrator Arthur D. Whiteside—in charge of the retail codes—had no plans for delay and regarded it essential to get the master charter, covering dry goods, drugs, food dealers and all other classes, into force as quickly as possible.

Major developments in the coal situation were expected soon, after word from Johnson yesterday that in view of the opposition of the coal men the code would have to be revised extensively, He still clung to hope of obtaining agreement of the mine operators so as to avoid imposing the code on them by Presidential edict. All factions of mine men were engaged in meetings.

Meantime, the national labor board was taking an active hand in adjustment of two strike situations. The first had called out thousands of workers in silk mills of the New Jersey area and was being dealt with by meetings in New York, preliminary to a hearing on the silk code which is to be held here next week.

Cleveland Strike.

The other, the Cleveland street car strike, brought plans from both the chairman, Senator Wagner of New York, and Edward F. McGrady, assistant NRA administrator, to be in the Ohio city next Monday. Agents of the board already are on the ground.

To help quiet the Cleveland situation, Deputy Administrator Malcolm Muir was hurrying the transit code. with expectations of presenting it to Johnson for transmission to President Roosevelt Monday. The understanding today was this agreement would go through substantially as originally submitted.

The retail code, ranking now behind coal as the next major NRA problem, is being drafted with a cost-plus provision which, except in specified instances will require retailers to keep their prices at or above a figure representing 10 per cent more than the cost of the goods to them. This is regarded as a minimum limit only, since the average cost of retailing is estimated by Johnson and his assistants at not less than 18 per cent.

Special Committee.

However, special committee has been ordered set up to study the cost-plus question, with representatives of the agricultural adjustment administration and several government departments serving on it.

This action was taken by the cabinet industrial recovery board which advises Johnson in his administration. Whiteside said if this committee was ready to function the first of next week he would be able to consult with it before submitting his recommendations on the cost provision.

LARGE PRODUCING OIL WELL BROUGHT IN ON WATT LEASE

J. E. Watts Well No. 1 was brought in Sunday in the East Texas oil field by Stroube and Stroube who drilled the well for Mr. Watt on a 145 acre lease recently bought by Mr. Watt from the Humble Oil company. This new well extends the East Texas field to the north as the Humble company did not drill on this tract, believing it was off the structures, and for this reason sold the lease.

Since bringing in the well Mr. Watt has gone into a contract with Stroube and Stroube to develop the lease. Since the well is a big producer Mr. and Mrs. Watt will build a new home immediately on a beautiful location on the ease. Work on the building will begin at once.

Stroube and Stroube, who have four drilling rigs in the East Texas field have a number of wells themselves and will drill nine more wells on their own leases immediately.

Mr. and Mrs. Watt have many friends in Corsicana who will be glad to learn of their good fortune, they being the parents of Mrs. W. C. Stroube of Mills Place.

To celebrate the bringing in of the Watt well W. C. Stroube gave a barbecue picnic on the lease Sunday to the drilling crew and the following from Corsicana: Mr. and Mrs. J. E. Watt, Mrs. W. C. Stroube and son, Joe; Miss Jess Watt, Mr. and Mrs. H. R. Stroube and sons, Jack and Sonny; Homer Jester, Jr., Mr. and Mrs. Lowry Martin.

Negro Charged With Murder at Fairfield

FAIRFIELD, Texas, Sept. 11.—(AP)—Henry Granberry, Jr., negro is charged by complaint with murder, and his wife, Rowena Granberry, is dead as a result of a shooting scrape at a cafe here Sunday morning. The negress was shot four times with a 32-20 pistol and died in a Teague hospital Sunday night. Granberry surrendered to county officers and was placed in the county jail.

A formal complaint was filed Monday morning.

Mrs. T. L. Brown of the Bryan community entertained with a family reunion at her home on Friday and Saturday, Sept. 1 and 2. Among those present were all her children and some neighbors and friends. Included in those present were Mr. and Mrs. C. H. Lockey and daughter, Jackie of Port Arthur; Mr. and Mrs. Hubert Hudle of Chandler.. Mr. and Mrs. Frank Brown;; Mr. and Mrs. Lewis Brown and daughter, Betty Joyce all of the Bryan community and Thomas and Mary Brown. A bountiful dinner was served at the noon hour Friday and in the afternoon a watermelon feast was enjoyed.

Popular McKinney Girl Weds Frost Man In Church Ceremony

The following taken from last Wednesday's McKinney Courier-Gazette concerning the marriage there of Miss Pauline Long and N. H. Slater of Frost will be read with interest here, where the groom is well-known and popular:

Miss Pauline Long became the bride of N. H. Slater of Frost, Texas, in a pretty wedding that was solemnized in the First Christian church at 8 o'clock Tuesday evening. Dr. Clifford S. Weaver officiated, using the impressive ring ceremony.

The church was beautifully decorated with an embankment of ferns and baskets of vari-colored zinnias. Misses Doris and Dorothy Coffey lighted white tapers in seven-branch candlebra, which lighted the scene.

Mrs. Ross Orenduff, played the nuptial music, while Mrs. Helen McKinney was soloist, singing "All For You," being accompanied by Mrs. Orenduff.

Miss Anna Ruby Long, sister of the bride, attended as bridesmaid while Buddie Merrell of Frost attended the groom. Little Miss Patty Orenduff was flower girl.

Malcolm Long and Truett Braswell were ushers.

The bride was most attractive in white. She carried an arm bouquet of white rosebuds. Miss Long wore a pink frock, her flowers being gladioli. Mrs. Slater's going-away dress was in navy blue, with accessories in the same color.

Following the ceremony the couple left immediately for a wedding trip to San Antonio, after which they will be at home in Frost, Texas, where Mr. and Mrs. Slater will be engaged in teaching the coming year.

The bride is the attractive daughter of Mrs. Katie Long of this city. She is a winsome young lady, numbering her friends by her acquaintances. She was educated in the public schools at Melissa and McKinney, later attending N. T. S. T. C., in Denton. She has taught at different points in the county and is regarded as one of our city's most popular young ladies.

The groom, son of Mr. and Mrs. C. R. Slater of Frost, is an ambitious young man, who posseses a wide number of friends. He attended the N. T. S. T. C. at Denton, where he was popular and active in student affairs. He is receiving congratulations upon winning the hand of such a fair young lady.

Out-of-Town Guests.

Those from out-of-town attending the nuptials were Mr. and Mrs. R. C. Slater of Frost, Misses Irene and Arline Flass, Liddie Mae Pharr and Pauline Brandon of Farmersville, Mr. and Mrs. Johnny Collins and little son, Johnny Duke, of Eastland; Mr. and Mrs. C. R. Osburn, Mr. and Mrs. F. C. Ogilvie, Mr. and Mrs. Lawrence Miller, Mr. and Mrs. Joe Knox, Mrs. J. L. Gibson, Miss Corinne Gibson, Mrs. Alma Phillips, Misses Eula and Kathryn Barker, Mae Phillips, Mary Lou and Ruth Graves, Alice Douglas, all of Melissa.

BENEFICIAL RAINS FELL SUNDAY AND MONDAY FREESTONE

FAIRFIELD, Texas, Sept. 11.—(Spl.)—Gardens and pastures in Freestone county were greatly benefitted by the big rains which fell Sunday and Monday morning, breaking the drouth of several weeks. A good rain fell Sunday and the precipitation Monday morning was estimated at one inch.

Good rains were reported in all sections of the county.

The rains damaged open cotton considerably and it is feared in some quarters that the activities of worms in the cotton will be materially increased. Considerably loss has been reported from worms in the creek and river bottoms but little damage has been done on the uplands.

Ginning is in full swing and the local gins are handling approximately 175 bales per day. There are eight cotton buyers making their headquarters here and cotton is being brought to Fairfied from a considerably increased territory as compared with former seasons.

SLIGHTLY HIGHER THAN FORECAST OF ONE MONTH AGO

ESTIMATE IS ONLY SLIGHTLY LOWER THAN LAST YEAR'S PRODUCTION

WASHINGTON, Sept. 8. (AP)—Cotton production this year was forecast today by the department of agriculture at 12,414,000 bales of 500 pounds gross weight, compared with 12,314,000 bales indicated a month ago, and 13,002,000 bales produced last year.

The condition of the crop on Sept. 1 was 67.5 per cent of a normal, compared with 74.2 a month ago and 66.6 on Sept. 1 last year.

The indicated yield per acre was announced at 197.8 pounds as compared with 198.4 pounds indicated a month ago, 173.3 pounds produced last year and 167.4 pounds, the average for the previous ten wears.

The production forecast was based on the preliminary acreage statistics which placed the acreage remaining Sept. 1 for harvest at 30,036,000 acres allowing deduction for the probable removal of acreage reported by the agricultural adjustment administration, loss abandonment on area not under contract. Last month's forecast of production was based on 29,704,000 acres. The area in cultivation July 1, was 40,798,000 acres.

Abandonment of acreage this year after July 1, was announced as 1.2 per cent, compared with a ten-year average abandonment of 2.6 per cent. The abandonment this year does not include acreage of cotton destroyed on contract with the agricultural adjusment administration.

The condition of the crop Sept. 1 and the indicated production by states was repored as follows:

Virginia, condition 73 per cent of a normal, and indicated production 38,000 bales of 500 pounds gross weight; North Carolina, 71 and 638,000; South Carolina, 63 and 690,000; Georgia, 59 and 1,035,000; Florida, 74 and 33,000; Missouri, 78 and 212,000; Tennessee, 72 and 432,000; Alabama, 65 and 962,000; Mississippi, 1,369,000; Louisiana, 55 and 543,000; Texas, 68 and 3,815,000; Oklahoma, 72 and 1,133,000; Arkansas, 66 and 1,188,000; New Mexico, 1 and 66,000; Arizonu, 88 and 82,000; California, 84 and 182,000; all other states, 84 and 10,000; Lower California, Old Mexico (not included in California figures nor in United States total) 81 and 24,000.

WASHINGTON, Sept. 8.—(AP)—Cotton of this year's crop ginned prior to Sept. 1 was reported today by the census bureau to have totaled 1,394,220 running bales, counting round bales as half bales and excluding linters.

Ginnings to Sept. 1, last year totaled 865,160 running bales, including 16,179 round bales and 31 of American-Egyptian, and to Sept. 1, 1931, ginnings were 565,753 running bales, including 10,130 round bales and 19 bales of American-Egyptian.

Ginnings to Sept. 1 this year by states were:

Alabama, 88,851; Arkansas, 5,108; Florida, 8,195; Georgia, 238,506; Louisiana, 47,109; Mississippi. 46,839; Oklahoma, 3,499; South Carolina, 50,620; Texas, 905,274; all other states, 2,219.

Break Occurred In New Orleans Cotton

NEW ORLEANS, Sept. 8.—(AP)—Deferred hedge-selling which appeared in volume on the New Orleans market following publication of the governments September crop forecast, late today caused a break in cotton prices of $1.50 to $1.60 a bale from earlier highs and futures closed at bottom quotations off 80 to 95 cents a bale net.

The crop forecast, 12,414,000 bales, although 100,000 bales larger than the August figure, was about in line with trade expectations and prices held steady and little changed after publication. Subsequently the market advanced on fresh buying of 55 to 70 cents from yesterday's final prices. The weight of the hedges which apparently had been held off for the forecast carried quotations off swiftly in late dealings however, and October dropped to 8.87 and December to 8.99, with last prices the lowest.

Spot cotton declined 05 cents a bale to a basis of 8.68 cents a pound for middling.

Program Announced For County W. M. U. Meet Here Sept. 26

Following is the program of the Navarro County W. M. U. to meet with the Eleventh Avenue Baptist church, Corsicana, on Tuesday, Sept. 26th:

Believed Cotton Theft Ring Broken By Kerens Officers

KERENS, Sept. 11.—(Spl.)—It is believed by farmers here that Officers Holloway and Burleson have succeeded in cleaning up the cotton thieves that have been stealing cotton over this end of the county for the last few days when they rounded up the bunch last week. They had to go nearly to the Van Zandt county line to catch two of them. Several farmers had been missing cotton. here. The officers are being complimented by their many Kerens friends on the good work they did.

CRUEL TREATMENT CHARGED IN BAILEY JAIL CONFINEMENT

HABEAS CORPUS SOUGHT [illegible] ATTORNEY FOR NOT[illegible] . SOUTHWESTERN OUTLAW

OKLAHOMA CITY, Sept. [illegible] —Federal Judge Edgar S. Va[illegible] refused today to interfere [illegible] the manner in which federal [illegible] county authorities are [illegible] Harvey Bailey, Southwestern [illegible] perado, as he awaits trial [illegible] Charles F. Urschel kidnaping.

Bailey, through his atto[illegible] alleged cruel treatment in [illegible] county jail cell. He assert[illegible] was chained hand and foot [illegible] steel bars separating his le[illegible] making it impossible for [illegible] stand erect and difficult [illegible] to eat.

"I hear that Mr. Bailey [illegible] gun and broke jail last Mo[illegible] Judge Vauht commented. [illegible] gard Mr. Bailey as a very [illegible] ous man. I don't think he [illegible] hesitate a minute to mur[illegible] man to obtain his objective. [illegible] if he doesn't get to taek a[illegible] physical exercise he would [illegible] the court is giving him a [illegible] trial."

Trial is set for Septemb[illegible]

Judge Vaught said he [illegible] the court was without contro[illegible] the manner in which a pris[illegible] held. He added he was incli[illegible] believe Bailey "is secure."

Bailey escaped from jail [illegible] las, Texas, last Monday, [illegible] captured at Ardmore and [illegible] here.

Judge Vaught refused [illegible] for Mr. and Mrs. R. G. S[illegible] and Armon Shannon, also [illegible] the Urschel kidnapin, a [illegible] trial.

OKLAHOMA CITY, Sept. [illegible] —The government's way of [illegible] ing sure it will hold on to [illegible] Bailey this time brought a [illegible] fight today against what [illegible] Mathers, attorney for the [illegible] breakin outlaw, called "cruel [illegible] inhuman treatment."

Mathers sought a habeas [illegible] pus writ to bring his client [illegible] cused of hatching the cunning [illegible] that led to Charles F. Ursc[illegible] $200,000 sojourn with kidnap[illegible] into federal court today to [illegible] gunshot wounds from which [illegible] attorney said Bailey is not [illegible] ering. He claimed officers [illegible] using these means to keep [illegible] outlaw from duplicating his [illegible] tional Labor Day break from [illegible] Dallas county jail:

Confinement in a dark, soli[illegible] cell.

"Large handcuffs around [illegible] wrist and his hands separated [illegible] a steel bar 16 inches long so [illegible] that he can eat only with [illegible] culty."

Legs shackled together "and [illegible] person chained by large, hea[illegible] and painful irons to fixed obje[illegible] in his cell."

No chair, and he is forced [illegible] appear in the nude, except [illegible] underwear."

"Seven machine guns" trained [illegible] his cell and search of the [illegible] "every hour of the day and [illegible]

Said District Attorney H[illegible] K. Hyde:

"he government is holding [illegible] pink tea down there. We have [illegible] any Sunday school boy in custo[illegible] either. We are holding a desperate criminal. The government [illegible] prepared to resist every effort [illegible] secure release of Bailey or to relax the guard under which he is held."

And County Jailer Fred Smith added: "He's getting better treatment than Urschel got. He's just unhappy."

Gas masks were added to the equipment of jail guards only yesterday, in case of any attempt at delivery by that method.

Bates' Attorney Says Threatened

DENVER, Sept. 9.—(AP)—Commenting on a statement by James Mathers, Oklahoma City attorney, that Harvey Bailey "is a victim of cruel and inhuman treatment" at the Oklahoma City jail, where he is held as one of the kidnapers of Charles F. Urschel, Ben [illegible] Laska, Denver counsel for Albert Bates, also held as one of the kidnapers, said today Bates "was so closely guarded they threatened to shoot me if I touched the bars on his cell."

Laska said Bates was in a cell adjoining Bailey's when he went to Oklahoma City to confer with his client about a defense.

"At first I had to talk to Bates through small metal holes in the door of his cell," said Laska. "The jailer finally say this precluded any exchange of confidential information between the prisoner and myself, so I was permitted to talk to Bates through the bars of a cell, but I was warned that if I put my hands on the bars the guards would shoot me."

Laska said he would leave next Wednesday for Oklahoma City where Bates, Bailey and others indicted in the Urschel kidnaping are scheduled to go on trial Sept. 18.

Alleged Member of Bailey Gang Guarded

KANSAS CITY, Sept. 9.—(AP)—Met by a small army of epace officers on his arrival here today from Chicago in custody of four officers, Louis Stacci, alleged member of the Nash-Bailey gang, was taken to the Jackson county jail and placed under a heavy guard.

Stacci was brought here to face trial on charges of conspiring in the plot to free Frank Nash, notorious outlaw, which led to the slaying of four officers and Nash at the Union station here June 17.

The formidable array of officers and guns met Stacci to thwart a repetition of the massacre, R. E. Vetterli, chief federal agent here, said.

Stacci is the sixth alleged member of the gang to be held as conspirators in the massacre. Harvey Bailey now awaiting trial in Oklahoma City, Okla., on a charge of kidnapping Charles F. Urschel, is the only one held believed to have been an actual participant in the slaying, Vetterli said.

It was Stacci, the indictment charges, who ordered Kansas City members of the gang to free Nash, as he was being returned to prison at Leavenworth, Kas., from which he had escaped.

BEAUTY CHATS -:-

By Edna Kent Forbes

All requests for beauty information desired by Edna Kent Forbes column followers must be accompanied by a fully self-addressed, stamped envelope (s.a.s.e.) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully s.a.s.e. must be enclosed. Address Miss Forbes in care of this paper.

DAILY BEAUTY TREATMENTS.

Establish your beauty routine, and try never to vary from it. A certain part of each day should be set aside for what you can call beauty culture if you wish, but which is really just sensible looking after yourself. You might try this suggestion of mine today, which is only for the very simple kind of treatment.

If you are a busy woman, your routine beauty work should be at night, at bedtime. Then, in the morning, you need only dash cold water over your face, preferably followed by wiping over the skin with a tonic, followed again by powder. If you are working in an office or shop you can use a very little finishing cream of some sort under the powder. And the merest touch of rouge and perhaps lipstick. Just to brighten up your morning face. Scrub the hands and if your nails don't look very well run a white pencil under them, to bring out the white tips.

Your afternoon treatment is as simple or as elaborate as you choose. I'll say nothing of it here, because at this time you are makyourself up for the evening, and then you use as many cosmetics, or as much makeups as you think you need, or as the occasion seems to require.

But at bedtime, go back to your routine. First, always, cleansing. Use soap and hot water some nights, use cleansing cream others. Some nights massage thoroughly with a good heavy cream, at others, let the skin alone, merely using cream, or muscle oil, around the eyes. Get under a strong light and look ofr stray hairs, or pimples, or blackheads. Remove at once any that you find. Use some good astringent on the skin after the cleansing and before the final cold creaming. Unless the night is very cold, in that case omit the astringent, heat the skin by holding a ho cloth over it, so as to let the cream penetrate into the open pores.

A. N. M.—You will keep your skin from having a shine on it if you go over it with the palm of your hand after bathing—just rub it softly as if removing a polish. You may alos use a small piece of chamois gtoetasthesemoftahh of chamois to get the same softness, and in neither case will you miss the powder from your skin.

Any exercises that stretch the spinal column will help you attain a little extra height. Learn to hold your head up in a natural way, and never let yourself slump either when walking or when seated. Slumping around the shoulders and neck will reduce the height and so will slumping around the waistline. Get credit for all the height you have and stretch for moie. Try peroxide on the pink spots on your skin left from the pimples.

Tomorrow—Reducing Suggestions

FAIRFIELD WATER AND SEWER PLANS NEAR COMPLETION

FAIRFIELD, Sept. 9.—(Spl.)—Harvey B. McAlister, city engineer was present at the meeting of the city council Tuesday afternoon and discussed the different phases of plans and sptcifications he has completed for the installation of a water and sewer system in Fairfield. Mr. McAllister stated that he would have all of his plans complete within the next few days and would be ready to complete the final details of the application for a government loan and present it to the proper authorities early next week.

The council and engineer find that it is necessary to secure a greater number of water and sewer connections in the business district before the application is completed.

Parties are making an investigation as to power and light rates in other towns for the purpose of comparison with rates charged here.

Many people are dissatisfied with the rates for power and lights and are expecting to either get a better rate from the existing facilities or make a change of some kind.

Fairfield Minister Performs Ceremony For Three Couples

FAIRFELD, Sept. 9.—(Spl.)—Rev. J. N. Vincent has performed the following marriage ceremonies during the past few days:

Sept. 1, in the Methodist church in Fairfield, Mr. O. G. Bucy and Miss Bess Mae Brown.

Sept. 2, Mr. Earl A. Stanford and Mrs. Mina Hightower, of Waco, were married at the Methodist parsonage.

Sept. 3, Mr. Howard H. Craig and Miss Marie Graham of Buffalo, were married at the Methodist parsonage.

May	9.27	9.54	9.27	9.48
July	9.55	9.55	9.55	9.63-b

New Orleans Spots Higher.

NEW ORLEANS, Sept. 11.—(AP)—Spot cotton closed steady, 25 points up. Sales 7,273; low middling 8.16, middling 8.70, good middling 9.16, receipts 3,928, stock 657,511.

Chicago Cotton Futures.

CHICAGO, Sept. 11.—(AP)—Cotton futures closed Oct. 9.00; Dec. 9.17, Jan. 9.30.

Liverpool Spots Lower.

LIVERPOOL, Sept. 11.—(AP)—Cotton, no receipts. Spot in fair demand; prices four points lower; quotations in pence. American strict good middling 6.03; good middling 5.73; strict middling 5.43; middling 5.28; strict low middling 5.13; low middling 4.93; strict good ordinary 4.73; good ordinary 4.43. Futures closed quiet and steady. Oct. 5.14; Dec. 5.16; Jan. 5.19; March 5.23; May 5.27; July 5.31.

New York Cotton Steady.

NEW YORK, Sept. 11.—(AP)—Cotton opened barely steady, 1 lower to 3 higher with steadier cables offset by Southern hedge selling and liquidation. Oct. 8.68; Dec. 8.88; Jan. 8.95; March 9.12; May 9.31; July 9.45.

Initial offerings were taken by a fairly active demand which came from the trade and local sources. There was also buying here through houses with New Orleans connections and some buying for Liverpool account, presumably on the differences. This was sufficient to steady prices and the market after the first half hour showed net advances of 3 to 6 points, December having rallied from 8.88 to 8.94.

Offerings were light after the early selling, and this was regarded as reflecting a firmer technical position after the selling of late last week.

The market held very steady later in the morning. By midday December had sold up to 9.07 and May to 9.49, making net advances of 18 to 20 points, mak- New York cotton exchange service has raised its estimate of last season's consumption from 14,132,000 to 14,405,000 bales and reduced its figures on the estimated carryover at the end of last July from 11,975,000 to 11,726,000 bales.

Futures closed very steady, 20-23 higher. Spot quiet; middling 9.05.

New Orleans Cotton Easier.

NEW ORLEANS, Sept. 11.—(AP)—Cotton opened a shade easier today Cables were considerably better than due but there was a good deal of hedge-selling at the start. As a result, prices opened unchanged to our points up. October declined after the start to 8.64 and December remained unchanged from the opening at 8.84, the general market being unchanged to three points up compared with Saturday's close.

After the hedges had been absorbed, prices rallied to 8.68 for October and 8.90 for December, showing net gains of 6 to 7 points. Later in the first hour prices eased one to two points from the highs and the market was comparatively quiet and featureless.

Although trading in cotton was quiet all morning, prices gradually improved with stocks and wheat. There was some trade buying and price fixing as well as short covering. October traded up to 8.80, December to 9.02 and January to 9.10, or 18 to 19 points above the previous close.

Cottonseed Oil Steady.

NEW ORLEANS, Sept. 11.—(AP)—Cotton seed oil closed steady. Prime summer yellow 3.95-4.45; prime crude 3.00-3.25. Sept. 4.07; Oct. 4.10; Nov. 4.16; Dec. 4.22; Jan. 4.28, March 4.45.

N. Y. Cottonseed Oil Firm.

NEW YORK, Sept. 11.—(AP)—Bleachable cottonseed oil futures closed firm; spot 4.45b; September 4.48b; October 4.55b; Nov. 4.65b; Dec. 4.74b; Jan. 4.84-85; Feb. 4.85b; March 4.98b; sales 32 contracts.

Call Money Steady.

NEW YORK, Sept. 11.—(AP)—Call money steady; 3-4 per cent all day.

Time loans steady; 60 days 3-4; 90 days 3-4; 4 months 3-4; 5 months 3-4@1; mos. 1@1 1-4 per cent.

60-90 days 5-8 1-2.

4 mos. 5-8 1-2.

5-6 mos. 7-8 3-4.

DALLAS NEGRO HAS PLACED BLAME FOR MURDER ON BROTHER

DALLAS, Sept. 11.—(AP)—Bluit Burkley, 19-year-old negro, repudiated his confession to the brutal slaying of Miss Katheryn Prince at his murder trial today and attempted to shift the responsibility for the crime on his brother, Thurman Burkley.

Claiming that his statement to officers was made under threats of mob violence, Bluit swore it was Thurman who had the pistol and shot both Miss Prince and her escort, Mace Carver, whom the negroes accosted as they sat in a parked automobile naer Dallas.

He also testified that Thurman had forced him to drive the automobile to a point on the Balch Springs road where Thurman shot Carver and left him for dead. He said his brother then ordered him to drive to the field where the girl was taken from the car, subjected to mistreatment by Thurman and shot by Thurman. He denied both shootings, although in his confession he said he was the one who killed Miss Prince.

He swore that the confession was wrung from him after arresting officers threatened to open the doors and turn him over to a crowd of angry citizens if he didn't sign within "three minutes."

Two Dollars Were Sent in Monday in Hurricane Relief

Only two dollars were added to the local Red Cross hurricane relief fund being raised by the Navarro County Chapter of the American Red Cross to relieve suffering among victims of the recent Rio Grande Valley hurricane, on Monday. A check for $2 was received at the Daily Sun office Monday from Harold W. McNabb.

Grains Skyrocketed.

CHICAGO, Sept. 11.—(AP)—Widespread notice given to talk of likelihood soon of some form of currency inflation led to skyrocketing of all grain values today.

The inflation talk had its origin chiefly in remarks credited to Secretary of Agriculture Wallace in which he was reported to have said the commodity dollar appealed to administration officials as the best if not the only means of controlled inflation. Some of today's buying of grain was also due to prospects the government crop figures this afternoon might make a bullish showing, especially as to corn.

Trading was the most active witnessed in weeks. Wheat made a maximim gain of 4 1-8 cents, rye 4 1-2 cents and corn 2 3-8 cents. There was some talk toward the last about possibility of France going off the gold standard.

Wheat closed unsettler 2 7-8@3 1-4 above Saturday's finish; corn 1 3-8@1 5-8 up, oats 1 3-8@1 3-4 advanced, and provisions varying from 15 cents decine to a rise of 10 cents.

Wheat Prices Advance.

CHICAGO, Sept. 11.—(AP)—Wheat prices scored gains today after an irregular start. The upturns were attributed to speculative buying based on a statement of Secretary of Agriculture Wallace suggesting that there might be a strong dose of inflation within the next three months.

Opening 3-4 off to 1-8 up, wheat later rose all around to well above Saturday's finish. Corn started at 1-4 decline to 1-8 advance, and subsequently showed a general upturn.

Eggs, firm; extra firsts 17 1-2; fresh graded firsts 17; current receipts 13-14.

Livestock

Fort Worth Livestock.

FORT WORTRH, Sept. 11.—(AP)—(U. S. D. A.)—HOGS: 1,400, including 579 directs and 300 government pigs; steady to 10 higher; top 4.30; bulk better 190-260 lb truck hogs 4.20-4.25; good 170 lb rail hogs 4.15; bulk better 160-180 truck hogs 3.70-4.10; packing sows 2.50.

CATTLE: 1,500; Calves 2,000; slaughter cattle and calves slow; yearlings steady to 15 lower; other classes about steady; fed yearlings 5.85, others 5.25, medium grades mostly 4.00; few cows 2.25; butcher cows 1.75-2.00; stocker steer calves 3.75-4.00; some short yearling order 4.25; fat Brahnia calves on order 4.00; other loads 3.75; plain and common calves 2.50-3.25.

SHEEP: 2,000; bidding 2.25 for good shorn aged wethers, or 25c lower.

Kansas City Livestock.

KANSAS ITY, Sept. 11.—(AP)—(U. S. D. A.)—HOGS: 16,000; 11,000 government pigs; steady to 5 lower; top 4.10 on 180-215 lbs.; good and choice, 140-350 lbs., 3.20-4.10; packing sows, 275-550 lbs., 1.90-2.85.

CATTLE: 17,000; calves 3,000; killing classes steady to 15 lower; stockers and feeders steady to 25 lower; steers, good and choice 1500 lbs 4.75-6.25; common and medium 550 lbs up 2.75-4.75; cows, good 2.65-3.25; vealers (milk-fed), medium to choice, 3.00-6.00; stocker and feeder steers, good and choice 3.75-5.35.

SHEEP: 7,000; native lambs 25 lower; yearlings and sheep steady; lambs, good and choice (x) 90 lbs down 6.50-7.40; yearling wethers, medium to choice 90-110 lbs 3.50-4.85; ewes, good and choice 90-150 lbs., 1.50-2.75.

(x)—Quotations based on ewes and wethers.

Three Killed in Crash of Plane; Pilot Left Out

SAN BERNARDINO, Cal., Sept. 11.—(AP)—Three young men who took off in an airplane without waiting for the pilot were killed 20 minutes later when the plane crashed from an altitude of 500 feet.

Robert Alsit, San Bernardino, who investigators said held a license for solo flights, was at the controls. His companions were Edgar L. Saferite and Herbert S. Kelly, both of Burgank. Each of the trio was 27 years old.

Guinn Cook, airport manager, said while he was getting goggles and helmet preparatory to taking the three for a ride, Alsit hopped off.

FINANCE MARKETS AMBLE ALONG WITH SLOW PACE MONDAY

UNDERTONE FIRM; GRAINS AND COTTON SHOW SIGNS OF RECOVERY

NEW ORK, Sept. 11.—(AP)—Stock prices moved up sharply today in quiet trading and several issues reached new highs for the year. Professionals bid up the alcohols and other groups followed. The upturn was attributed partly to a renewal of inflationary psychology and to the fact that offerings were scarce in all departments. The close was strong, with gains ranging from 1 to 5 or more points. Transfers approximated 1,900,000 shares.

By VICTOR EUBANK
Associated Press Financial Writer

NEW YORK, Sept. 11.—(AP)—Financial markets ambled along at a snail's pace today with only occasional moments of wakefulness.

The undertone of stocks was firm, however. Grains and cotton showed signs of recovery, with wheat getting up a cent or more a bushel. Silver, rubber and sugar futures were a bit higher.

European gold currencies and Sterling rallied against the dollar, although the price of bar gold at London was somewhat lower. Bonds were moderately irregular.

The alcohol shares reflected the revival of repeal sentiment with National Distillers, American Commercial Alcohol, U. S. Industrial Alcohol and Schenley getting up 2 to around 4 or more points. Union Pacific came back 3, as Santa Fe, New York Central and Pennsylvania advanced about a point each. Others up 1 to 2 or more, included Johns-Manville, Montgomery Ward, U. S. Smelting, Sears Roebuck, American Telephone, U. S. Steel, Chrysler, Allied Chemical, DuPont Loew's, American Tobacco B, Public Service of New Jersey, United Aircraft, Western Union, Westinghouse and Cerro De Pasco.

The consensus of brokerage circles seems to be that this week should witness the consummation of the organization of the National Recovery program with the odds now in favor of success. At the same time, various difficulties are envisaged. The inflationists entertain the belief that if the administration's plans do not meet with the hoped-for results, recourse will be had to currency inflation in addition to further broadening of the credit field.

Curb Still Dull.

NEW YORK, Sept. 11.—(AP)—Dullness still prevailed in the curb market today, but prices had a firm undertone.

Traders took some interest in alcohol shares, doubtless because several states are voting on repeal this week, and both Hiram Walker and Distillers' Seagrams rallied more than a point.

A few oils and metals also improved. Humble and Mapes Consolidated each gaining moderately. Bunker Hill and Sullivan sagged in its first appearance of the day.

In utilities, Electric Bond and Share had a narrow market, but its trend was toward higher levels. Specialties were somewhat mixed.

Texas Woman Senator Gets Federal Place But Declines Accept Job

AUSTIN, Sept. 11.—(AP)—Margie E. Neal, state senator from Carthage, said today she had declined an appointment as recorder for the Federal General Land Office, offered her by President Roosevelt. Miss Neal said she intended to complete her term in the Texas legislature.

WASHINGTON, Sept. 11.—(AP)—President Roosevelt today appointed Miss Margie E. Neal of Carthage, Tex., to be recorder of the general land office.

She is a member of the Texas state senate.

FORD LEAVES HIS VACATION UNDER TRAILER CANVAS

DETROIT, Sept. 11.—(AP)—Emphatic denial was made today at the offices of the Ford Motor Co. of the statement that Henry Ford had eluded observers at his Huron Mountain vacation lodge Saturday by departing in a trailer, concealed by a canvas covering. The statement that Mr. Ford had used the trailer to escape would-be questioners was attributed to a fellow member of the Huron Mountain Club.

BIG BAY, Mich., Sept. 11.—(AP)—Eluding questioners by hiding under canvas in an automobile trailer, Henry Ford left his Huron Mountain vacation camp here Saturday noon for a return trip to Detroit, it was learned today.

A fellow member of the Huron Mountain lodge, where the motor magnate and his wife spent the past three weeks in a secluded region of Michigan's upper peninsula, revealed that the motor magnate slipped away from questioners by hiding in the trailer as it was drawn through Bib Bay, six miles from the camp.

None of the camp residents, the member said, knew that Ford had departed until several hours later. Advice that he spent a part of Sunday in West Branch, Mich., was the first that residents here knew of his departure.

The member indicated that in the automobile to which the trailer was attached were Mrs. Ford, and George Burns, Ford's personal chauffeur. The trailer, he said, apparently was dropped near Marquette, 40 miles to the southeast.

Ford, it was indicated, seemingly was determined to prevent questioners from conversing with him regarding his company's stand on the NRA automotive code, and adopted the method of eluding them partly in a spirit of fun and partly as a means of preventing any attempts at questioning.

POLICE BATTLE STRIKERS WITH FIRE HOSE TODAY

SEVERAL THOUSAND STRIKERS PICKET UNITED PIECE DYE WORKS AT LODI

PATTERSON, N. J., Sept. 11.—(AP)—Police turned fire hose on pickets surrounding the United Piece Dye Works at Lodi shortly after noon today as strikers estimated to number several thousand gathered about the plant.

The pickets reformed lines broken by the streams of water. Police Sergeant John Uzinski, alleged to have flourished a gun, was mobbed by the crowd. Thereupon police again opened up with the hoses, and in the resulting melee, John Tacti, editor of the Lodi Messenger, a weekly, was knocked unconscious, and an unidentified man received a laceration of the scalp. Tacti was said to be not seriously hurt.

The police force was composed of 350 police and special deputies and 75 company guards.

Word of the fight was flashed to all nearby municipalities, and carloads of additional officers were dispatched.

All the police were said to be armed with revolvers and tear gas bombs, and in Paterson a riot squad armed with three machine guns was held in readiness.

Strikers from other plants gathered at the Lodi factory throughout the morning where their number reached an estimated total of 5,000. The United Piece Dye Works is now regarded as the key point in a general strike.

Charles F. Auger, president of the National Silk Dyeing company revealed that the dyers will confer tomorrow with Gen. Hugh S. Johnson and U. S. Labor Conciliator, John A. Moffitt in New York at which representatives of the silk dyers institute and the A. F. of L. will be present.

Four Corsicana Boys Reporting Training College of Marshall

Four Corsicana high school athletes have joined the College of Marshall football training camp and worked out last week. The second week of training began Monday.

Corsicana players include Tom Gries, Corsicana and Mexia high school player; Fred Hightower, quarter, perhaps the greatest signal barker in Corsicana's history final game in 1930 between Corsicana and Amarillo high schools; and two of the stalwarts of the 1932 Corsicana High Interscholastic league champions—Cotton McGee, guard, and John Kessinger, and one of the stars in the semicenter, both prominently mentioned on all-state teams.

Valley Farmers to Be Favored Cotton Destruction Checks

WASHINGTON, Sept. 11.—(AP)—The department of agriculture has agreed to expelite cotton acreage "plowup" checks to farmers in the lower Rio Grande Valley of Texas, swept by last week's hurricane, Representative Milton West of Texas has been advised.

By mailing checks ahead of their regular order, the department will give considerable and much aided need to the region, West pointed out.

He also conferred during the day with the agriculture credit corporation urging that money for replanting be advanced to the valley as soon as possible.

HEAVY RAINS IN NORTHERN CENTRAL SECTION OF STATE

NEEDED MOISTURE AND RELIEF FROM HEAT FOLLOWS PRECIPITATION

(By The Associated Press)

Heavy rains brought much-needed relief to crops and lowered temperatures materially throughout North Central Texas last night and today. Overcast skies generally in that section of the state and the weather bureau forecast indicated there would be additional showers.

From a low pressure area, local conditions developed in mid. afternoon yesterday, causing high winds and scattered showers. A hard storm through Denton county caused slight damage to cotton and disrupted rural telegraph and telephone lines. Many small creeks left their banks.

The weather man predicted that the rains woud send the Trinity river out of its banks between Fort Worth and Dallas in the next 24 to 48 hours, with a gauge reading of 30 feet, compared with 18 feet at 7 a. m. today at Dallas. The watershed to the north of those two cities was thoroughly drenched.

Although the weather at Austin, Del Rio, San Antonio, Galveston and Brownsville was reported as clear in the 7 a. m. government report, Port Arthur's rainfall in the previous 24 hours totaled 1.66 inches. Palestine .80, Fort Worth .62, Dallas .06, Abilene .04 and Houston .22 After a half-inch rain at Olney, the weather began to clear.

Heavy rain and lightning in the region about Borger last night followed brisk showers earlier in the day. Rainfall at Plainview reached .85 inch.

Intermittent rains last night and today at Longview totaled just more than an inch, benefitting crops greatly. The fall ceased during the morning. One-third inch fell at Pampa overnight and the sky was overcast.

Heavy rains fell yesterday at Archer City, Graham and the section south of Wichita Falls.

Bodies Minister And Wife Found; Shot and Beaten

RIPLEY, W. Va., Sept. 11.—(AP)—Beaten and shot to death, the bodies of the Rev. A. M. Eddy, and his wife were found at their home at Grace Fork today.

They were found by a neighbor who stumbled over Mrs. Eddy's body as he left his home. He followed a trail of blood to the Eddy house and into a bedroom where Mr. Eddy was found dead in bed.

Mr. Eddy, pastor of the Mt. Hope Church of God, had been shot to death while sleeping. Indications were his wife was awakened by the shots and fled wounded from the house.

She had been pursued and shot again as she fled down the highway. Then, officers said as they followed the trail of evidence, her assailant beat her over the head with a shotgun.

The weapon, shattered by repeated blows at Mrs. Eddy, was found beside her body at the edge of a small culvert.

Officers said the gun had been identified as one borrowed from a neighbor several weeks ago by the minister's son, Ralph, 16. Ralph could not be located nor could the Eddy automobile be found. A search for the youth was started immediately.

Officers said Ralph is a son of Mr. Eddy's first wife.

A motive for the double slayings was not apparent to officers who said the family attended church in a group last night and returned home immediately after the services.

Mrs. Eddy still was breathing faintly when found by A. M. Lilly, a neighbor. She died, however, without regaining consciousness.

A three-year-old adopted boy, sleeping in Mr. Eddy's bedroom, was questioned but his childish answers indicated he slept through the tragedy.

Eight Masked Robbers Secure Huge Sum Today

ST. PAUL, Sept. 11.—(AP)—Eight masked robbers held up two Railway Express company employes at the door of their office early today, escaping with two large cash boxes which police said contained between $60,000 and $100,000.

Cash boxes were on a hand truck outside the door of the express company office, near the Union station, ready to be taken to Minneapolis.

The police said the eight men backed a big sedan under the depot concourse, not far from the Express company office.

As T. A. Mangan, a guard, and S. Moles, messenger, opened the door of the office to wheel out the truck carrying the cash container, five robbers surrounded them.

The leader with a sawed-off shot gun, commanded the company employes to "stick 'em up and face the wall."

Two men guarded the victims while the others loaded the cash boxes into the automobile.

After disarming Mangan and Moles, the robbers sped away in their car. They fired two shots in the air as they went.

The victims said the robbers had white handkerchiefs around te lower parts of their faces. They said the license plates on their sedan were turned so it was impossible to read the numbers.

The loot included cash, checks and non-negotiable vouchers.

Texas Guinan At Angelus Templ Praises Aim

LOS ANGELES, Sept. 11.— Whether Texas Guinan, Bro night club hostess was a co of Angelus Temple evangel the hostess would not say to

Miss Guinan joined a long of marchers into Mrs. Aimee ple McPherson Hutton's Temple last night sat through the services, deposited a $20 bill and in a shiny limousine.

"Aimee is a most amazing woman for having built up such an organization," said Miss Guinan.

Mrs. Hutton, who paid a visit to Miss Guinan's night club while in New York, was not present last night. The services were conducted by Rheba Crawford Splvalo, guest pastor and former "Angel of Broadway"

TAX COLLECTIONS

(Continued From Page One)

cause for getting taxes due the government.

Tax Collections Show An Increase

WASHINGTON, Sept. 11.—(AP)—An increase in miscellaneous taxes offset a decline in income levies to put internal revenue collections for the 1933 fiscal year $8 110,181 above those of 1932.

Treasury figures today put the 1933 total at $1,619,839,224. This sum included $746,791,404, or $ 965,293 less than 1932 income taxes payments and $873,047,820, or an increase of $372,075,475 in miscellaneous collections.

Only the last two of the income tax quarterly payments were made on the basis of the 1932 boost in rates.

MAGNOLIA NOSED OUT RICHLAND CREW SUNDAY IN GREAT FINISH

Magnolia Refiners won over the Richland Independents at Magnolia Park Sunday afternoon, 2-1, in the most exciting game of the season with a whirlwind finish in the ninth nning. Richland scored her run in the sixth and Magnolia chalked up her two tallies in the ninth.

Allen's triple in the ninth inning won the ball game.

Ed Price, Corsicana and University of Texas athlete, hurled the game for Richland and pitched one of the finest games seen on the local diamond this year. He held the Magnolia crew hitless until the ninth inning when he was beaten. Richland touched D. K. Robinson, Magnolia hurler, for nine hits but the Magnolia flipper was effective when hits meant runs.

The Refiners will meet the Exline and Lowden Club of Dallas here Sunday afternoon.

SCHOOL AT PETTY'S CHAPEL WILL OPEN MONDAY, OCTOBER 2

The Petty's Chapel school will open Oct. 2, 1933, and the term will run eight months. Ten grades will be taught. The school is affiliated by having pupils take state examinations in May.

Many improvements have been made for the school this year—new library, new stage curtains, good drinking fountains, new desks and other features. Good school work will be required of all pupils.

The school board and teachers are trying to give the community the best school possible, and the hearty co-operation of every parent is requested.

The teachers for 1933-34 are: M. B. Autry, principal; Miss Ruby Wilson, Mrs. Minnie Conner and Mrs. Jewel W. Harrold. Frank Wilson and W. E. Harris will transport the children

Baby Died Sunday; Burial at Richland

The infant son of Mr. and Mrs. Starley Chism of Richland died Sunday and the funeral was held at Richalnd Monday afternoon at 2 o'clock where burial was made. Surviving are the parents.

The services were directed by the Corley Funeral home.

Dull Headaches Gone Simple Remedy Does It

Headaches caused by constipation are gone after one dose of Adlerika. This cleans all poisons out of BOTH upper and lower bowels. Gives better sleep, ends nervousness. —McPherson Drug Company, (adv.)

EE FEATURES AT ELLIS COUNTY FAIR TO BE ATTRACTIVE

ENTERTAINMENT EACH EVENING WILL BE BEST IN HISTORY OF FAIR

ENNIS, Sept. 11.—(Spl.)— The management of the Ellis County Fair, when asked about the free attractions in front of the grandstand at the fair, which runs from Sept. 25 to 30, stated that all night features of the fair that were held in front of the grandstand were for the entertainment and pleasure of the patrons of the fair and would be absolutely free to all.

Great apins and a lot of time and money are being spent for this purpose and it is the desire of the directors of the fair to make this the greatest year of the exposition in regard to free entertainment. A public wedding, a pageant, negro singing and fireworks are the feature attractions for the night programs this year.

Never before has the fair of Ellis county caused more concern over one program than this year. For the opening night, an Ellis county couple will be married in front of the grandstand. Who can it be? Without a doubt you know this couple. The girl lives in Waxahachie and the boy lives near Ennis. You'll be surprised to know and your best friend won't tell you.

For the second night of this great week the citizens of Waxahachie and close by communities under the able direction of Mrs. W. B. Sims will present a pageant. The program for Wednesday night will be arranged and announced later.

Thursday is negro day and that night the feature attraction will be in the form of a contest between the negro singers of the county. Prizes are offered for the best quartettes and solos.

If you would like to see the great Northern Lights or their equal, you will make arrangements to be present for the program Friday night. The skies will be lighted with all the colors of the rainbow and the air will be filled with noises to equal any of the great battles of the World War. Fireworks wil be exploded for the entertainment of all who are present.

Who can want more fun and entertainment packed into one week?? Who can ask for more for the price asked gy the directors of the fair? General admission tickets for children will sell for 15 cents and for adults at 25 cents. Then you can buy season tickets which will give you season admission. The prices are as fallows: Adults, $1.50 and children 75 cents. This is the greatest value in season tickets aver sold by any fair in the South. See the committee in your city and buy a ticket. You'll get your money's worth.

Wortham Community Fair Dates Set For This Year's Show

WORTHAM, Sept. 11.—(Spl.)— The Wortham community fair will be held here Sept. 29 and 30. Plans are well underway that promise a bigger and better fair than last year. The Future Farmers chapter of the Wortham high school with their vocational agriculture teacher as general chairman, will be in charge. They are supported by the Civic club, merchants and farmers of the Wortham trade territory. Poultry and livestock, farm products, canned goods and other things will be the featured exhibits.

New Koon Kreek Klub Dam Ready To Impound Water

ATHENS, Sept. 11.—The new dam at the Koon Kreek Klub was completed Friday afternoon. The dam structure measures 1,100 feet in length and has a 30-foot concrete spillway. It will give the club its third lake with the addition of more than 300 acres of water. The new lake has many natural islands in it and will make an ideal duck lake.

Man Killed When Struck by Truck

ATHENS, Sept. 11.—W. E. (Billie) Smith, 52, of the Sands Springs community, was instantly killed Saturday afternoon when the two-wheel rig in which he and Alexander Caddell, 17, were riding was struck by an oil truck two miles from Athens.

Surviving are his wife, two children and other relatives.

FLOOD DEATHS

(Continued From Page One)

and property damage which authorities said will reach close to $1,000,000.

Mrs. Elizabeth James, 86, and her nine-year-old grandson, Benny James, were drowned.

Two boys, unidentified, were reported to have been in a car which skidded from a highway into the Platte river. Authorities believed the report erroneous. A farmer was reported drowned south of Littleton but this also was unsubstantiated.

Denver and Englewood, Idledale and Morrison of Bear creek, Littleton on the Platte river and Welby, northwest of Denver on the Platte, suffered flood damage.

Cloudbursts filled Clear, Dry, Sand, Cherry and Bear creeks to overflowing. All empty into the Platte river and their combined output sent the larger stream on a rampage.

A huge gully was washed in the main street of Englewood and three buildings collapsed; 75 basements were flooded in Denver and extensive damage was done to crops north of here.

The James family had been living in improvised buildings on a farm southeast of here while the house was being repaired.

Mrs. James was torn from the grasp of her granddaughter, Frances James, 20, who sought to pull the aged woman to safety on a rafter in the cow shed. Benny was washed away from a bed in the barn in which he was sleeping.

REPEAL

(Continued From Page One)

Eighty delegates will be chosen from the 16 counties. Listed wtihout designation as to their belief on repeal or retention, the names of four to 26 delegates appear alphabetically on the ballots of the varous counties.

A majority in each county will decide whether wet or dry delegates will represent the county, but the possibility existed that a close vote the state majority might be for repeal and the convention delegation of opposite tenet or vice versa.

Leaders of both factions expected comparatively light balloting.

ILLNESS AND OLD AGE FEATURED CHARITY CASES

THESE TWO CAUSES HAVE BROUGHT LARGE NUMBER CALLS FOR ASSISTANCE

A large number of cases coming under the attention of the United Charities organization during August were those of old age, and illness, according to Miss Auusta Helm's secretary's report for the month. Over 100 cases were handled and of them six were of extreme old age; and 11 illness, and people with no bread winners.

Miss Helm in her report stressed the mportance of a number of consulative cases that came before her organization, and said they aided a number of epople in planning for the future. Eighteen cases were of this nature, and every one of them were greatly benefitted by the plans laid for them by the United Charities.

A number of cases that do not come under the classification of other local relief agencies were also handled by the United Charities.

Clothing was given 15 families, which will include about 40 individuals. Groceries were provided 19 families, and the organization loaned two pairs of crutches, three wheel chairs, and sickroom supplies to three. One patient was sent to the Scotish Rite Hospital in Dallas. The organization investigated 12 local cases for other towns.

Twenty-seven transients were handled, and all were well except one who was injured, and he was sent to his home. The others were offered work, and unless they took the work, nothing was done for them. Their labors were paid in food. Mis Helm reported that 24 cases were referred to other organizations.

Five people coming under local jurisdiction, but who were away from the city or state, were given permission to return here by the United Charities, and the organization will care for them. Among the places they returned from were Kansas, Cleveland, O., and Nashvile, Tenn., and other cities.

Good Rain Fell In Kerens Sector Saturday Afternoon

KERENS, Sept. 11.—(Spl.)—A general rain fell over this part of the county Saturday, putting the land in first-class condition for breaking. A large number of farmers were waiting for sufficient rainfall to enable them to break their corn and oat land also plant fall gardens.

A large number were seen on the street Monday buying turnip and other garden seed to plant. Dry tanks and water holes were filled, supplying plenty of stock water.

Some claim the rains will start worms in the cotton, but the rain was well received by most farmers, the yard receipts at Kerens' three yards were around 7,500 bales up to Saturday night.

EINSTEIN

(Continued From Page One)

from Belgium Saturday night following a report that Nazis had put a price on his head. Locker-Lampson, who offered Dr. Einstein the use of his Westminster house last April, met him at the station.

(The scientist's wife remained for the time being at their villa at Le-Coq-Sur-Mer)

Since the Nazi revolution Dr. Einstein has virtually been exiled from Germany. He once said he would never return to Germany while Hitlerites were in power. Soon afterwards his Berlin home was raided.

Last week reports were that a secret Nazi organization put a price of about $6,800 on his head. He jokingly said, "I didn't know my head was worth that."

FLOOD

(Continued From Page One)

ranches were under water west of Reynosa, Mexican resort city opposite Hidalgo. The water backed up three or four miles from the river. Reynosa itself, located on a bluff, was out of reach of the water but was cut off. Its inhabitants were amply supplied with food and water.

Matamoros Threatened.

Water had broken over the river bank and was spreading around Matamoros but had not entered the city yet. During previous severe floods the lowlands around Matamoros have been under water and parts of the outlying section of the city inundated. Early last week levees up the river from Matamoros were dynamited by Mexican authorities to allow water to flow into the Arroyo Del Tigre and relieve the presure on levees near the city.

On the American side much of the flood water was diverted through floodways traversing Hidalgo and Willacy counties. High water had reached Mercedes in the floodway and was expected to flow down the Arroya Colorado near Harlingen. Latest reports from Mercedes, 35 miles upstream from Brownsville, said the river stage was stationary there. This was taken as an indication that the crest of the flood was in that vicinity.

Crest of Flood Passed.

SAN BENITO, Sept. 11.—(AP)—The crest of the Rio Grande flood rolled down toward Mercedes today as hundreds of men guarded weak spots in the floodway system against breaks.

The first such break in the levees occurred yesterday in one of the larger Mexican outlets opposite the Los Flores ranch near Carricitos below San Benito, permitting the water to drain into lowlands and causing a drop in the gauges on the American side.

The flood-fighting organization was augmented today by the arrival of Lieut. L. J. Rumaggi, H. L. Sisson and H. W Maruder from the United States army district enfineer's office at Galveston to assist Maj. E. H. Marks, district engineer named to take charge of the work.

The river began falling slowly at Brownsville today, indicating that although the crest was still upstream, the flood' waters were escaping through the Arroyo Colorado at Harlingen and through the levee break side of the river. Brownsville, 18.4, des, 22, steady, and falling.
